

Information Item

Date: August 30, 2010

To: Mayor and City Council
From: Carol Swindell, Director of Finance/City Treasurer
Subject: City Monthly Cash and Investment Report for June 2010

Introduction

In compliance with the City Charter, State law, and the City's Investment Policy, the attached monthly report provides information concerning City investments and cash held and/or managed by the Director of Finance/City Treasurer as of June 30, 2010.

Discussion

The June 2010 Investment Report highlights changes from May. The value of cash and investments held in the pooled portfolio decreased by \$15.7 million during June to \$539 million. The pooled portfolio yield-to-maturity fell seven basis points in June to 1.52%, seventy (70) basis points lower than in June 2009. Investment earnings for the month were \$1.4 million. Fiscal year-to-date earnings were down 27% from FY2008-09.

In addition to the pooled portfolio, the City's total cash holdings as of June 30, 2010 included \$54.1 million in Charnock settlement-related funds, \$20 million in bond proceeds held in trust with fiscal agents, \$9.5 million in other funds held in trust, and \$57,122 in petty cash/change funds for a total balance of \$622.6 million.

In compliance with Governmental Accounting Standards, the Monthly Cash and Investment Report provides the fair market value of all investments held by the City, with certain exceptions, as of the last day of the month. The fair market value may be greater or less than the original purchase price (book/reported value) of the investments due to fluctuations in the market resulting in either an unrealized gain or loss for financial

disclosure purposes only. Since it is the City's policy to hold most securities to maturity, these fluctuations in market value do not affect the redemption value of the securities or the overall yield of the portfolio. The book values of investments shown in this report are exclusive of amortization/accretion of premiums/discounts. As of June 30, 2010, the market value of the City's portfolio was about \$0.9 million more than the book value.

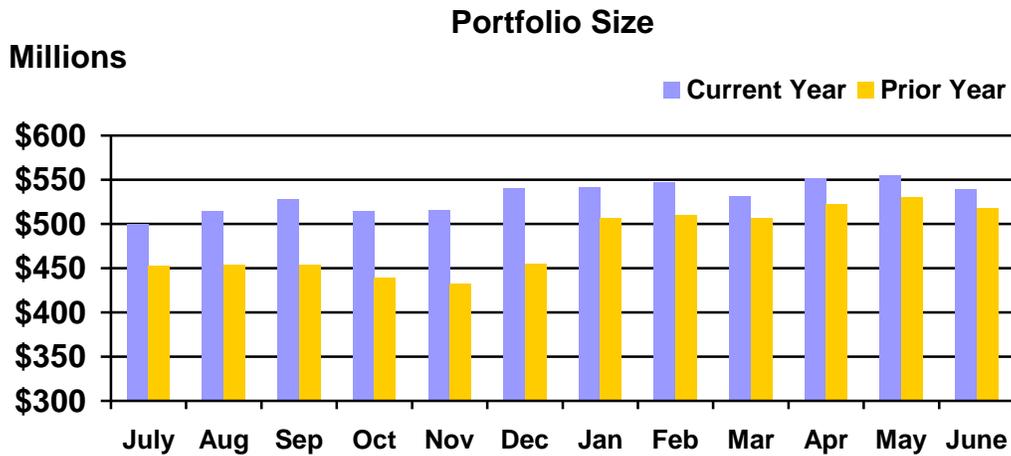

Attached is a summary of investment activity as well as a detailed report of public monies held by the City Treasurer for the month of June 2010.

Prepared by: David Carr, Principal Investment Analyst

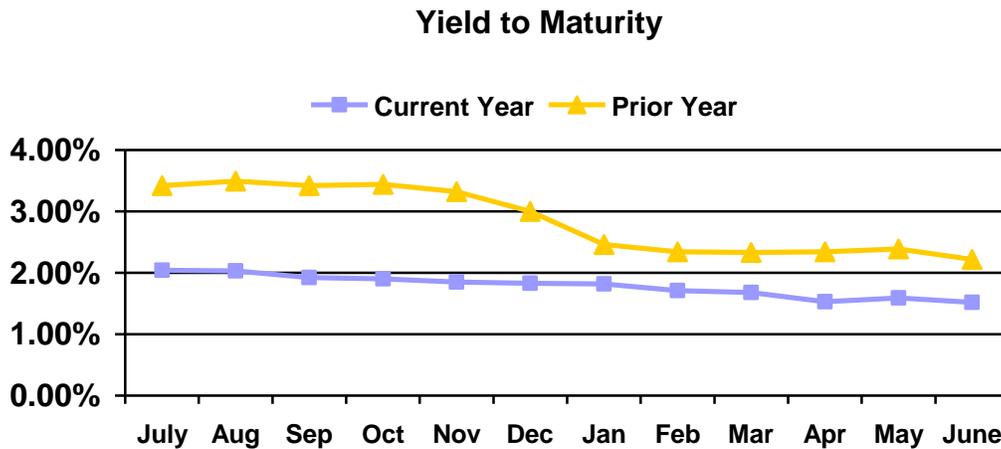

Attachments: 1 – Investment Highlights
2 – Investment Report

Investment Highlights

June 2010

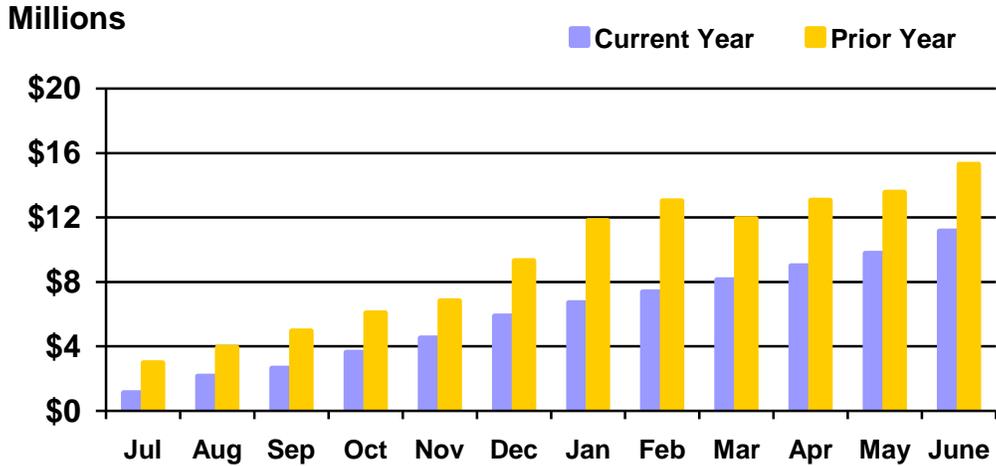

- As of June 30, the portfolio size is \$539 million, \$15.7 million less than in May, but \$20.9 million more than in June 2009.

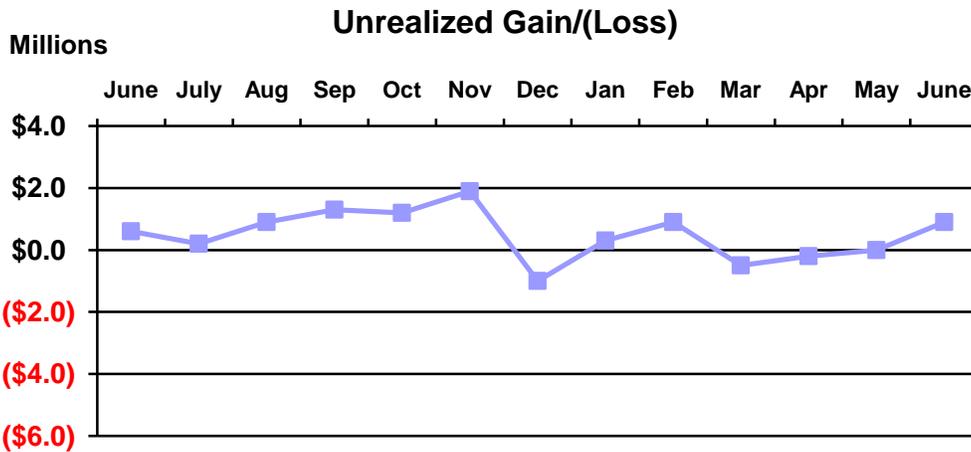

- As of June 30, yield to maturity is 1.52 percent.
- Decrease of seven basis points from May and seventy basis points from one year earlier.

Fiscal Year-to-Date Interest Earnings (Cumulative by Month)

- Fiscal 2009-10 earnings were 27% less than the prior year.

- The unrealized gain of \$0.9 million reported as of June 30, 2010 is the difference between market value and the unamortized book value (purchase price).

City of Santa Monica
Report of Public Monies Held by the City Treasurer
As of June 30, 2010

- (1) This is the actual bank account balance as of 6/30/10. It only reflects checks and warrants that have been presented for payment and deposits received by the bank. The balance on deposit per the City books would reflect reductions for all checks and warrants issued and an increase for all deposits transmitted. Redevelopment Agency, Housing Authority, and Parking Authority Funds included in totals.
- (2) The City of Santa Monica Housing Authority administers the Family Self Sufficiency Program. An escrow account is set up for each family in the program. The Housing Authority maintains and releases the escrow funds as required by HUD regulations.
- (3) The Cemetery Perpetual Care Funds and the Mausoleum Perpetual Care Funds are held in trust by Charles Schwab & Company, Inc. and administered by the investment firm RNC Genter Capital Management Company. Market value is shown since a large portion of the portfolio is in equities.
- (4) HUD Depository account is used to receive monthly housing assistance payments from HUD.

Cash Receipts, Disbursements and Cash Balances*
June 30, 2010**

Pursuant to Section 711d of the City Charter, I submit the following:

Cash and Investments - May 31, 2010	554,735,531.91
Receipts	44,499,735.22
Disbursements	(60,273,942.24)
Cash and Investments - June 30, 2010	\$538,961,324.89

* Pooled portfolio only. Excludes certain investments held in trust by third parties such as bond proceeds, perpetual care funds, and Charnock settlement funds.

Carol Swindell
Director of Finance/City Treasurer

Overview

As of June 30, 2010, total City cash and investments were \$622.6 million, an \$8.4 million decrease from May. The decrease is primarily due to a \$4.4 million decrease in Charnock settlement funds reflecting water treatment plant construction expenditures. In addition, Citywide expenditures typically exceed revenues in the month of June. Further details are provided below.

Petty Cash	\$	57,122.00
Pooled Investment Portfolio	\$	538,961,324.89
Restricted Cash/Investment Held in Trust	\$	20,020,794.73

Other Funds Held in Trust	\$	9,528,912.62
Total	\$	<u>622,635,612.46</u>

Definitions

- Basis Point – One hundredth of one percent (.01%)
- Book (Reported) Value – The price paid for the security at purchase.
- Bullets – A security with a fixed coupon or interest rate that cannot be redeemed by the issuer before the maturity date.
- Callable Securities – A security that can be redeemed by the issuer before the maturity date.
- Duration – A measure of the timing of the cash flows, such as the interest payments and the principal repayment, to be received from a security. The duration of a security is a useful indicator of its price volatility for given changes in interest rates.
- Market Value – The price at which a security is currently trading and could be presumably bought or sold.
- Par Value – The full face value of the security.
- Rebalancing – Strategy whereby low yielding securities are sold at a loss with the proceeds used to purchase higher yielding securities.
- TLGP (Temporary Loan Guarantee Program) – Federal program through which the Federal Deposit Insurance Corporation guarantees repayment of certain bonds issued by financial institutions.
- Unrealized Gain/Loss – Difference between the current market value and purchase price (book value) of a security.

- Yield to Maturity – The rate of return of a security held to maturity when both interest payments and the investor’s gain or loss (premium paid or discount taken) on the security is taken into account.

Pooled Investment Portfolio

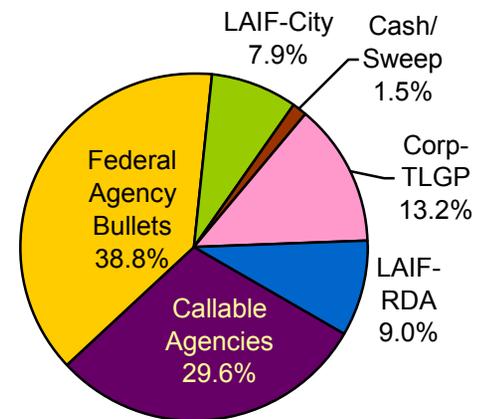

As of June 30, 2010, the portfolio size (unamortized book value/purchase price) of City pooled cash and investments is \$539 million, a \$15.7 million decrease from May. The decrease primarily reflects the transfer of \$11.6 million to bond trustees for July 1 semi-annual debt service payments. Additionally, as noted above, expenditures typically exceed revenues in the month of June. Since the City holds most investments to maturity, variations in portfolio book value are typically due to receipt and expenditure patterns during the month rather than any realized gains or losses on securities. Additionally, the City does not amortize premiums or accrete discounts except for financial reporting purposes on the last day of each fiscal year. Eleven investments were made during the month (\$61 million), five investments matured (\$39.2 million), and seven investments were called (\$32.9 million). No investments were sold. The net total City and RDA State Local Agency Investment Fund (LAIF) account balances decreased by \$4.9 million in June. The balance of the money market sweep account on June 30 was \$7.1 million.

Details of the main portfolio follow.

Portfolio Composition

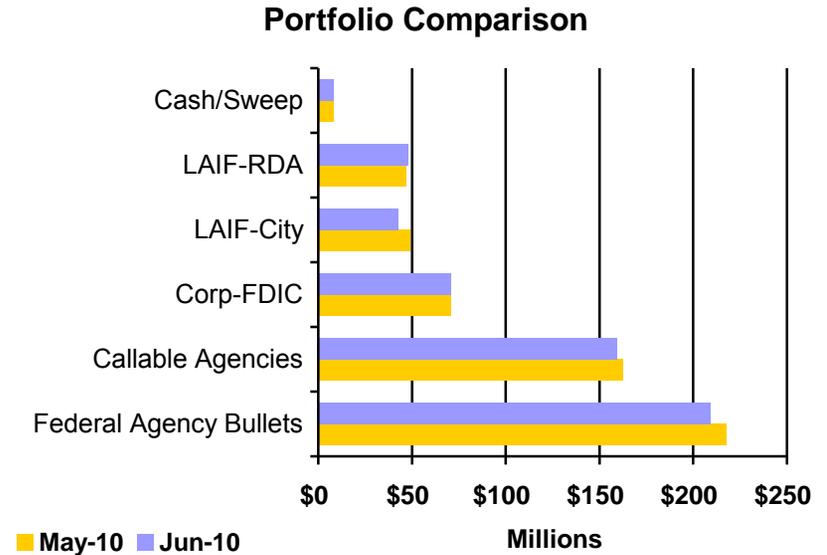

The portfolio is well-diversified and is in compliance with the City’s Investment Policy and applicable provisions of the State Government Code. The largest sector of the portfolio is Federal Agency Securities (68.4%). The remaining 31.6% is invested in State Local Agency Investment Fund accounts for the City (7.9%) and the RDA (9%); corporate notes (13.2%), all of which are currently FDIC insured bonds (AAA rated) issued under the FDIC’s Temporary Liquidity Guarantee Program (TLGP); and cash including the money market sweep account (1.5%). This portfolio mix allows the City to maintain its primary investment objectives of safety and liquidity while attaining a rate of return consistent with the City’s Investment Policy and Investment Plan.

Portfolio Composition

Portfolio Comparison

The chart to the right shows the overall structure of the portfolio by type of investment compared to last month. There were no significant changes in June. The City continues to hold a major balance in short term funds as interest rates remain at historic lows, and LAIF provides a significant benefit over other types of investments with maturities one year and under. The bond market, financial and economic conditions, and portfolio structure are continuously evaluated when making investment decisions.

Rebalancing of Portfolio

No portfolio rebalancing occurred in June due to the low interest rate environment. However, when rates begin to rise again, rebalancing opportunities will be evaluated.

Portfolio Yield

The portfolio yield-to-maturity was 1.52% as of June 30, 2010, down seven (7) basis points from May and down seventy (70) basis points from June 2009. This is the twelfth month in the last thirteen of declining yields. The continuing record low interest rate environment continues to affect portfolio returns. This month's yield is three hundred fifty-eight (351) basis points below the most recent high mark of 5.1% in September 2007 and is at the lowest in seven years. The chart compares the month-end portfolio yield to the twelve-month moving averages of the two-year Constant Maturing Treasury security yield (CMT) and State Local Agency Investment Fund (LAIF) yield.

Interest rates in the one to five year maturity range decreased in June for the third consecutive month and remain at historically low levels. The month-end two year CMT decreased sixteen basis points in June after falling by twenty-one (21) basis points in May. The twelve month moving average of the CMT fell by four basis points and is three hundred ninety-four (394) basis points off its February 2007 high. Rates are now expected to remain relatively low through at least late the first part of 2011. LAIF rates also continue to reflect the low interest rate environment. The twelve month moving average LAIF yield decreased by seven (7) basis points to 0.66% in June and has now declined for thirty-two consecutive months. The monthly LAIF yield for June was 0.53%, a record low.

At its June meeting, the Federal Open Market Committee (Fed) left the target Fed Funds rate unchanged at a range of 0% to 0.25% and indicated that rates would remain low for an extended period. While the economy continues to show some positive signs, particularly in corporate earnings, there are some concerns. Although housing market appears to have bottomed out and is showing improvement in many areas of the country, some slowing has occurred since the end of certain homebuyer tax credits in April. Foreclosures remain very high. Unemployment continues to hinder economic growth (the June rate was 9.5%) and much of the job creation during the prior few months was from temporary census jobs, which have ended for the most part. In addition, the economic problems of certain European countries is of concern. Preliminary second quarter GDP growth was a modest 2.4%. Economic concerns were reflected in the stock market as the Dow Jones Industrial Average

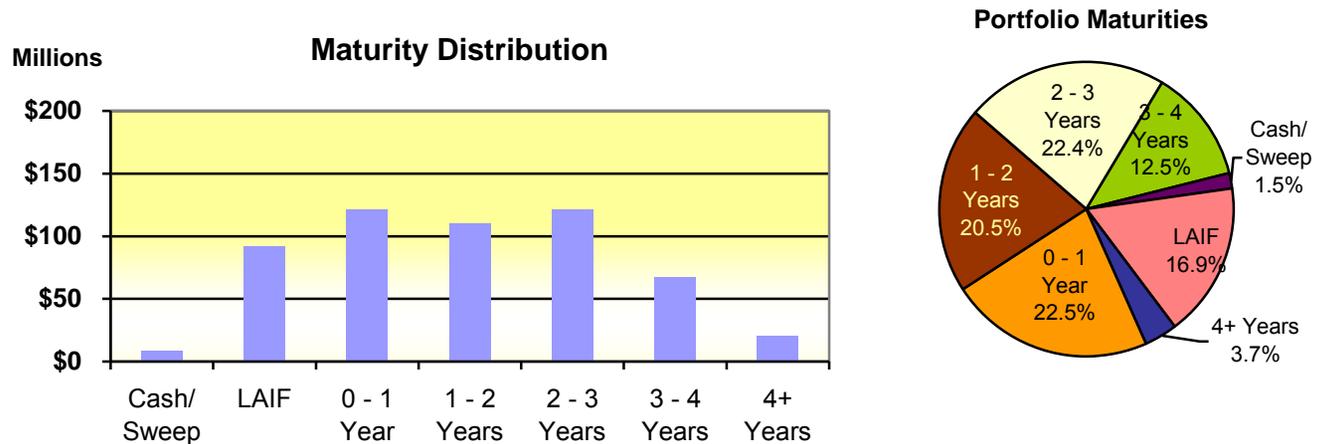

decreased nearly 2.5% in June after falling 8% in May. The commercial real estate market continues to be a major concern. Most economists now expect only mild economic growth in 2010 and 2011.

The City’s portfolio yield-to-maturity has decreased significantly over the last one and a half years as interest rates have reached historic lows resulting in many investments being called and reinvested at lower rates. Overall, the yield is not expected to change significantly over the next few months, but the market continues to be volatile, so yields could vary on a month-to-month basis. As noted, more bonds will be called in the next few months as interest rates are expected to remain low, but the volume of called investments should decrease after that as many of the higher yielding investments have already been called, matured, or in the case of corporate securities, sold.

Investment earnings in June were \$1.4 million. Fiscal year earnings were 27% less than last fiscal year.

Maturity Distribution

The weighted average days to maturity as of June 30, 2010 is 579 days (1.59 years), eighteen days more than the prior month. As noted elsewhere in this report, the current volatile and low interest rate environment continues to result in bonds being called, and the portfolio’s average days to maturity may vary over the next several months. Additionally, most investments are being made primarily in maturities of three years or less as rates are expected to begin a period of significant increase about six to twelve months in the future.

Unrealized Gains/Losses

The Governmental Accounting Standards Board Statement No. 31 (GASB 31) requires public agencies to report all investments, with certain exceptions, at current fair market value rather than at the original purchase price. Current fair market value is defined in GASB 31 as “the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation state.”

The current fair market value and unrealized gain/loss of a security do not affect its redemption value or yield if held to maturity. There is an inverse relationship between the price of the bond and the market interest rate. The City’s practice is to purchase most securities with the intent to hold them to maturity. Book value and market values are exclusive of interest realized to date on investments. Also, the book value shown is the purchase price and is exclusive of any amortization of premiums or accretion of discounts. As of June 30, 2010, the market value and the book value of the City’s pooled investments (excluding cash) are:

Market Value	\$	538,540,337.21
Book Value (purchase price)		537,690,236.56
Unrealized Gain/(Loss)	\$	850,100.65

Charnock Settlement

All remaining restricted settlement funds are now held in an escrow account with Union Bank to be used to pay for the costs of design, construction, and operation of the water treatment facility at the Charnock Wells. These funds are invested under the same guidelines as the pooled portfolio with maturity dates to match the estimated cash flow needs of the Water Treatment Facility project. In accordance with the December 2006 settlement agreement, investment income earned in the escrow account is not restricted for use on the project. In August 2009, all investment income earned from date of account opening (December 2006) through July 2009 was transferred to the City (approximately \$9.7 million) and interest is now being transferred on a monthly basis. Funds remaining in the account (approximately \$54.1 million) should be sufficient to cover all costs related to construction of the facility and operations for the first three to four years. The yield to maturity on these funds as of June 30, 2010 is 1.29%. On June 30, 2010, the portfolio showed an unrealized loss of \$629,630.96. The weighted average days-to-maturity was 173 days (0.5 years). Most investments are being held in very short maturity/low yield investments pending completion of construction of the treatment facility.

Compliance

California State law and the City's Investment Policy set certain legal standards for allowable investments that can be included in the City's portfolio. Additionally, there are certain maximum limits for classes of investments, as well as minimum credit quality requirements. In testing for compliance, the City considers all funds under the direct control and invested directly by the City including the pooled portfolio and the Water Treatment Facility account. Bond proceeds and the Cemetery and Mausoleum Perpetual Care Funds are excluded.

The following tables summarize portfolio compliance as of June 30, 2010 all investments were in compliance with State law and the City's Investment Policy at the time of purchase. State law requires that any investment subject to a credit downgrade subsequent to the time of purchase shall be reviewed for possible sale within a reasonable amount of time after the downgrade. As of the date of this report, the portfolio includes no bonds that have been downgraded since the time of purchase and all remaining corporate bonds are FDIC insured and rated AAA.

Further detail regarding City compliance with State law and City investment guidelines is presented as follows:

Certification

In compliance with California Government Code Section 53546 as amended January 1, 1996, I hereby certify that sufficient investment liquidity and anticipated revenues are available to meet the City's budgeted expenditure requirements for the next six months.

Carol Swindell, Director of Finance/City Treasurer
