

# Information Item

**Date: August 11, 2011**

To: Mayor and City Council  
From: Carol Swindell, Director of Finance/City Treasurer  
Subject: City Monthly Cash and Investment Report for February 2011

## **Introduction**

In compliance with the City Charter, State law, and the City's Investment Policy, the attached monthly report provides information concerning City investments and cash held and/or managed by the Director of Finance/City Treasurer as of February 28, 2011.

## **Discussion**

The February 2011 Investment Report highlights changes from January. The value of cash and investments held in the pooled portfolio increased by \$9.8 million in February to \$600 million. The increase is primarily due to property tax payments from Los Angeles County. The pooled portfolio yield-to-maturity rose one basis point in February to 1.19%, fifty-two (52) basis points lower than in February 2010. Investment earnings for the month were \$0.6 million. Fiscal year-to-date earnings are down 38.8% from the same period last year reflecting the impact of the record low interest rate environment. Further detail is included in the attached report.

In addition to the pooled portfolio, the City's total cash holdings as of February 28, 2011 included \$33.2 million in Charnock settlement-related funds, \$7.8 million in bond proceeds held in trust with fiscal agents, \$9.3 million in other funds held in trust, and \$57,222 in petty cash/change funds for a total balance of \$650.4 million.

In compliance with Governmental Accounting Standards, the Monthly Cash and Investment Report provides the fair market value of all investments held by the City, with certain

exceptions, as of the last day of the month. The fair market value may be greater or less than the original purchase price (book/reported value) of the investments due to fluctuations in the market resulting in either an unrealized gain or loss for financial disclosure purposes only. Since it is the City's policy to hold most securities to maturity, these fluctuations in market value do not affect the redemption value of the securities or the overall yield of the portfolio. The book values of investments shown in this report are exclusive of amortization/accretion of premiums/discounts. As of February 28, 2011, the market value of the City's portfolio was about \$1.7 million less than the book value.

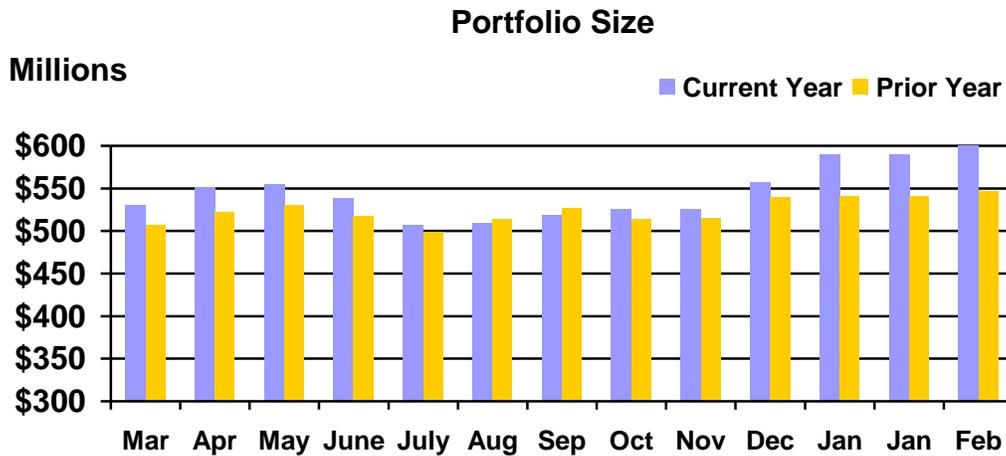

Attached is a summary of investment activity as well as a detailed report of public monies held by the City Treasurer for the month of February 28 2011.

Prepared by: David Carr, Budget Administrator

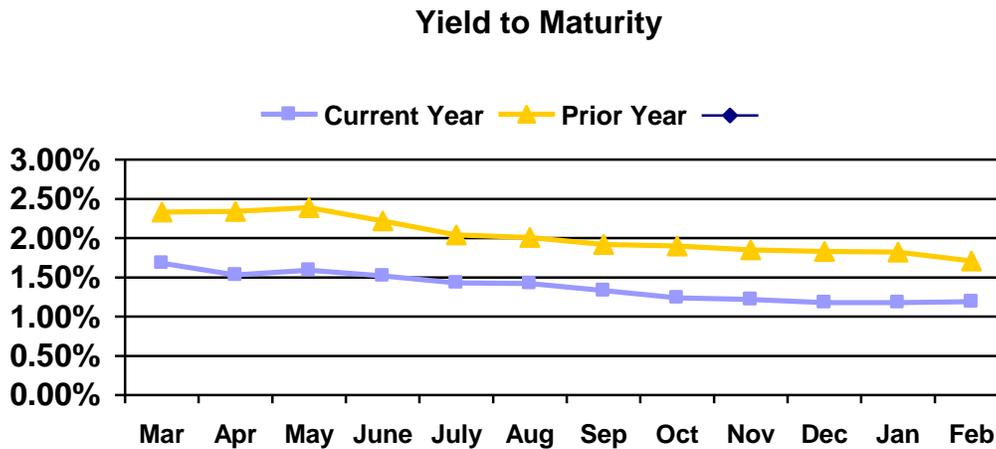

Attachments: 1 – Investment Highlights  
2 – Investment Report

# Investment Highlights

## February 28, 2011

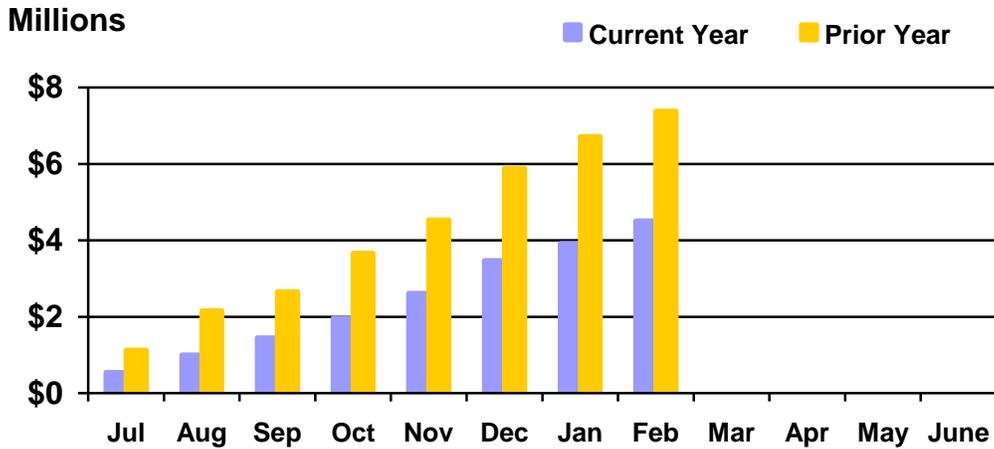

- As of February 28, the portfolio size is \$600 million, \$9.8 million more than in January, and \$52.7 million more than in February 2010.

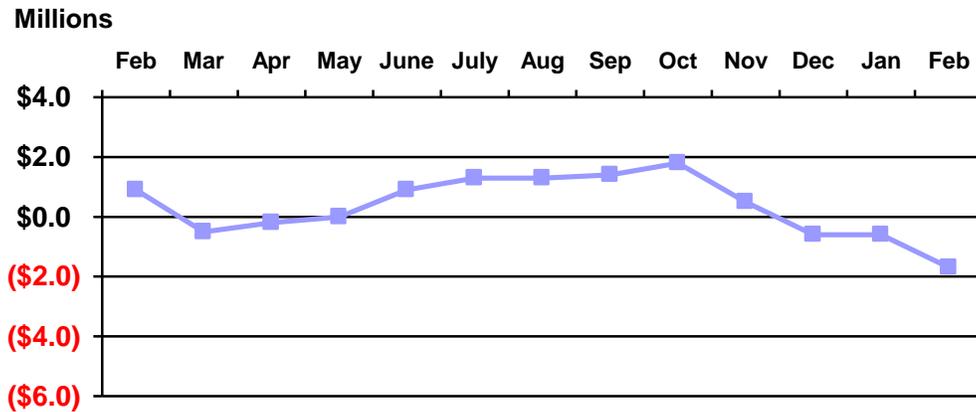

- As of February 28, yield to maturity is 1.19%.
- Increase of one basis point from January, but decrease of and fifty-two basis points from one year earlier.

### Fiscal Year-to-Date Interest Earnings (Cumulative by Month)

- February year-to-date earnings are 38.8% less than in the prior year.

### Unrealized Gain/(Loss)

- The unrealized loss of \$1.7 million reported as of February 28, 2011 is the difference between market value and the unamortized book value (purchase price).

**City of Santa Monica**  
**Report of Public Monies Held by the City Treasurer**  
**As of February 28, 2011**

- (1) This is the actual bank account balance as of 2/28/11. It only reflects checks and warrants that have been presented for payment and deposits received by the bank. The balance on deposit per the City books would reflect reductions for all checks and warrants issued and an increase for all deposits transmitted. Redevelopment Agency, Housing Authority, and Parking Authority Funds included in totals.
- (2) The City of Santa Monica Housing Authority administers the Family Self Sufficiency Program. An escrow account is set up for each family in the program. The Housing Authority maintains and releases the escrow funds as required by HUD regulations.
- (3) The Cemetery Perpetual Care Funds and the Mausoleum Perpetual Care Funds are held in trust by Charles Schwab & Company, Inc. and administered by the investment firm RNC Genter Capital Management Company. Market value is shown since a large portion of the portfolio is in equities.
- (4) HUD Depository account is used to receive monthly housing assistance payments from HUD.

**City of Santa Monica**  
**Cash Receipts, Disbursements and Cash Balances\***  
**February 28, 2011**

Pursuant to Section 711d of the City Charter, I submit the following:

Cash and Investments - January 31, 2011	590,248,796.96
Receipts	38,931,783.72
Disbursements	(29,157,773.34)
Cash and Investments - February 28, 2011	\$600,022,807.34

\* Pooled portfolio only. Excludes certain investments held in trust by third parties such as bond proceeds, perpetual care funds, and Charnock settlement funds.

Carol Swindell  
Director of Finance/City Treasurer

**Overview**

As of February 28, 2011, total City cash and investments were \$650.4 million, a \$6.9 million increase from January. An increase in the pooled portfolio (\$9.8 million) primarily reflects property tax receipts from Los Angeles County. Partially offsetting are decreases in Other Restricted Funds/Funds Held in Trust reflecting the transfer of funds from the HUD Depository account to the City for reimbursement of costs and a slight decrease in Charnock settlement funds reflecting project expenditures.

Petty Cash	\$	57,222.00
Pooled Investment Portfolio	\$	600,022,807.34
Restricted Cash/Investment Held in Trust	\$	7,787,029.46
Charnock Settlement Funds	\$	33,180,909.55
Other Funds Held in Trust	\$	9,342,310.31
Total	\$	<u>650,390,278.66</u>

**Definitions**

- Basis Point – One hundredth of one percent (.01%)
- Book (Reported) Value – The price paid for the security at purchase.
- Bullets – A security with a fixed coupon or interest rate that cannot be redeemed by the issuer before the maturity date.
- Callable Securities – A security that can be redeemed by the issuer before the maturity date.
- Duration – A measure of the timing of the cash flows, such as the interest payments and the principal repayment, to be received from a security. The duration of a security is a useful indicator of its price volatility for given changes in interest rates.
- Market Value – The price at which a security is currently trading and could be presumably bought or sold.
- Par Value – The full face value of the security.
- Rebalancing – Strategy whereby low yielding securities are sold at a loss with the proceeds used to purchase higher yielding securities.
- TLGP (Temporary Loan Guarantee Program) – Federal program through which the Federal Deposit Insurance Corporation guarantees repayment of certain bonds issued by financial institutions.
- Unrealized Gain/Loss – Difference between the current market value and purchase price (book value) of a security.

- Yield to Maturity – The rate of return of a security held to maturity when both interest payments and the investor’s gain or loss (premium paid or discount taken) on the security is taken into account.

**Pooled Investment Portfolio**

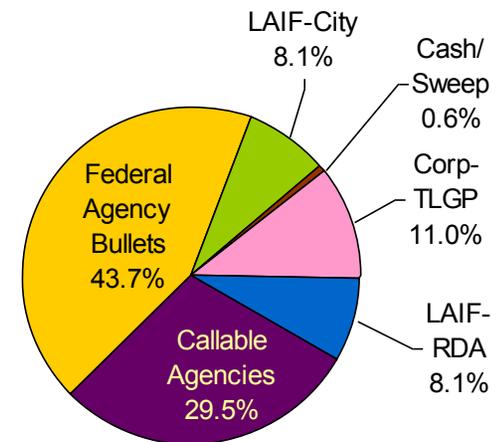

As of February 28, 2011, the portfolio size (unamortized book value/purchase price) of City pooled cash and investments is \$600.0 million, a \$9.8 million increase from January. As noted above, the increase reflects the property tax receipts from Los Angeles County and is a typical pattern for the month of February. Since the City holds most investments to maturity, variations in portfolio book value are typically due to receipt and expenditure patterns during the month rather than any realized gains or losses on securities. Additionally, the City does not amortize premiums or accrete discounts except for financial reporting purposes on the last day of each fiscal year. Eight investments were made during the month (\$35 million), four investments matured (\$29 million), and one investment was called (\$2.5 million). No investments were sold. The net total City and RDA State Local Agency Investment Fund (LAIF) account balances increased by \$6 million in February. The balance of the money market sweep account as of February month-end was \$2.5 million.

Details of the main portfolio follow.

**Portfolio Composition**

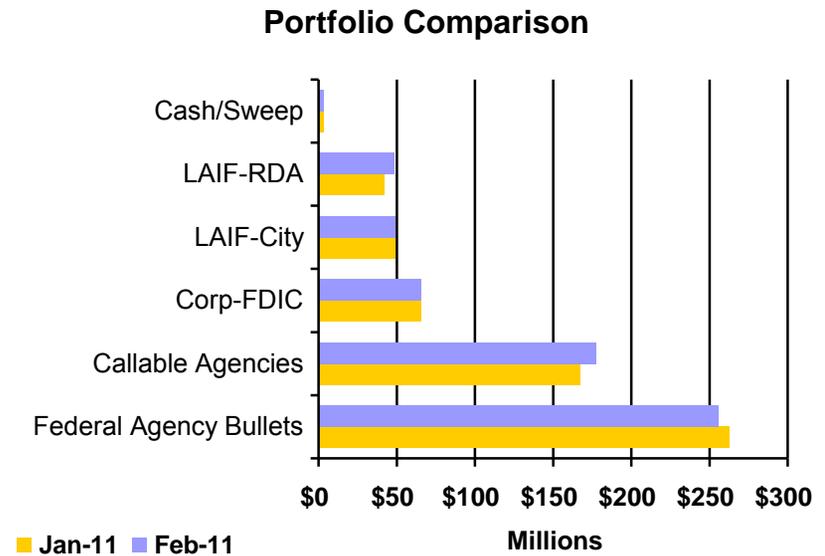

The portfolio is well-diversified and is in compliance with the City’s Investment Policy and applicable provisions of the State Government Code. The largest sector of the portfolio is Federal Agency Securities (72.2%). The remaining 27.8% is invested in State Local Agency Investment Fund accounts for the City (8.1%) and the RDA (8.1%); corporate notes (11%); all of which are currently FDIC insured bonds (AAA rated) issued under the FDIC’s Temporary Liquidity Guarantee Program (TLGP); and cash including the money market sweep account (0.6%). This portfolio mix allows the City to maintain its primary investment objectives of safety and liquidity while attaining a rate of return consistent with the City’s Investment Policy and Investment Plan.

**Portfolio Composition**

**Portfolio Comparison**

The chart to the right shows the overall structure of the portfolio by type of investment compared to last month. There were no significant changes in February. The City continues to hold a major balance in short term funds as interest rates remain at historic lows, and LAIF still a significant benefit over other types of investments with maturities one year and under. The bond market, financial and economic conditions, and portfolio structure are continuously evaluated when making investment decisions.

**Rebalancing of Portfolio**

No portfolio rebalancing occurred in February due to the low interest rate environment. However, when rates begin to consistently rise again, rebalancing opportunities will be evaluated.

**Portfolio Yield**

The portfolio yield-to-maturity was 1.19% as of February 28, 2011, up one (1) basis points from January, but down fifty two (52) basis points from February 2010. This is only the second month in the last twenty-one where the yield improved. The extended record low interest rate environment continues to affect portfolio returns. This month’s yield is three hundred ninety-one (391) basis points below the most recent high mark of 5.1% in September 2007 and continues near the lowest point for which records are available. The chart compares the month-end portfolio yield to the twelve-month moving averages of the two-year Constant Maturing Treasury security yield (CMT) and State Local Agency Investment Fund (LAIF) yield.

Interest rates in the two to five year maturity range increased in February, but still remained near historically low levels. The month-end two year CMT increased eleven (11) basis points in February, but is still thirty-nine (39) basis points lower than in March 2010, when rates hit their most recent high point. The twelve month moving average of the CMT was slightly lower in February and remains four hundred twelve (412) basis points off its February 2007 high. Rates are now expected to remain relatively low through at least the end of 2011 and possibly beyond. LAIF rates also continue to reflect the low interest rate environment. The twelve month moving average LAIF yield was unchanged at 0.52% in February, and has not shown a monthly increase in the last forty months. The monthly LAIF yield for February was 0.51%, down three basis points, and remains near historic lows.

The Federal Open Market Committee (Fed) did not meet in February, so the target Fed Funds rate remained unchanged at a range of 0% to 0.25%. Fed policy statements have indicated that they intend to keep rates at low levels for an extended time period. The economy continues to show positive signs, but some concerns regarding the long term health of the economy continue. Renewed slowing has occurred in the housing market as prices continue to show year over year decreases, foreclosures remain very high, and some analysts are beginning to project a “double dip” in the housing market. Although unemployment continues to dampen economic growth, the February unemployment rate decreased for the third month in a row to 8.9%, and the economy continues to add jobs. Additionally, rising prices for energy and other commodities could reduce

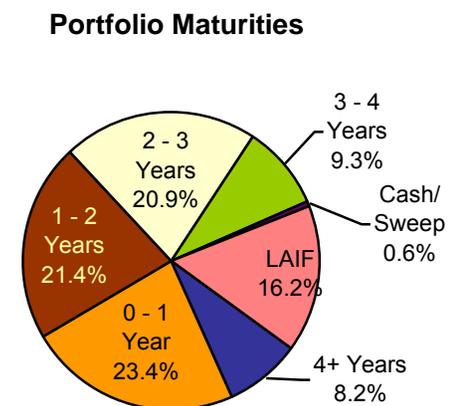

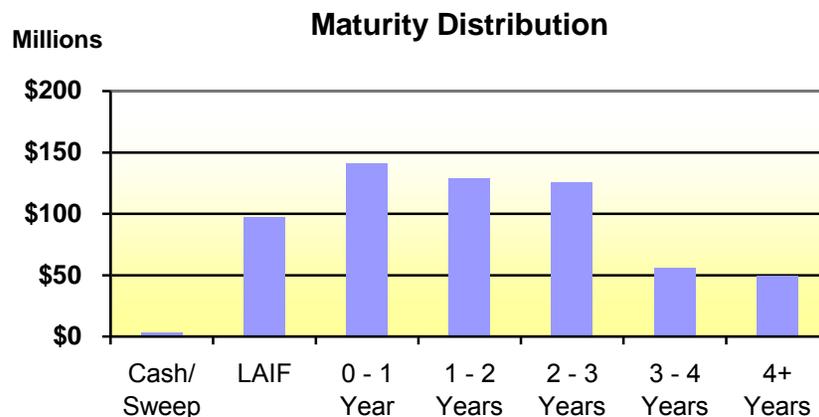

future economic growth. Economic growth as measured by GDP remains modest as first quarter growth is expected to be less than 2%. The stock market has been strong for the last few months. The Dow Jones Industrial Average increased about 3% in February and is up over 20% since the end of August. The expected crisis in the commercial real estate market has not materialized. Most economists now expect mild economic growth to continue for the remainder of 2011 and into 2012.

The City’s portfolio yield-to-maturity has decreased significantly over the last three years as interest rates have reached historic lows resulting in many investments being called and reinvested at lower rates. Overall, the yield will likely continue to decrease over the next few months, but the market continues to be volatile, so yields could vary on a month-to-month basis. More bonds will be called in the next few months as interest rates are expected to remain near historic lows.

Investment earnings in February were \$0.6 million. Fiscal year-to-date earnings are down 38.8% from the same period last year.

**Maturity Distribution**

The weighted average days to maturity as of February 28, 2011 is 599 days (1.65 years), five days less than the prior month. As noted elsewhere in this report, the current volatile and low interest rate environment continues to result in bonds being called, and the portfolio’s average days to maturity may vary over the next several months. Additionally, investments are being made primarily in maturities of three years or less as rates are not expected to begin a period of significant increase until a number of months in the future.

**Unrealized Gains/Losses**

The Governmental Accounting Standards Board Statement No. 31 (GASB 31) requires public agencies to report all investments, with certain exceptions, at current fair market value rather than at the original purchase price. Current fair market value is defined in GASB 31 as “the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation state.”

The current fair market value and unrealized gain/loss of a security do not affect its redemption value or yield if held to maturity. There is an inverse relationship between the price of the bond and the market interest rate. The City’s practice is to purchase most securities with the intent to hold them to maturity. Book value and market values are exclusive of interest realized to date on investments. Also, the book value shown is the purchase price and is exclusive of any amortization of premiums or accretion of discounts. As of February 28, 2011, the market value and the book value of the City’s pooled investments (excluding cash) are:

Market Value	\$ 597,424,629.74
Book Value (purchase price)	599,133,035.18
Unrealized Gain/(Loss)	\$ (1,708.405.44)

**Charnock Settlement**

All remaining restricted settlement funds are now held in an escrow account with Union Bank to be used to pay for the costs of design, construction, and operation of the water treatment facility at the Charnock Wells. These funds are invested under the same guidelines as the pooled portfolio with maturity dates to match the estimated cash flow needs of the Water Treatment Facility project. In accordance with the December 2006 settlement agreement, investment income earned in the escrow account is not restricted for use on the project. In August 2009, all investment income earned from date of account opening (December 2006) through July 2009 was transferred to the City (approximately \$9.7 million) and interest is now being transferred on a monthly basis. Funds remaining in the account (approximately \$33.5 million) should be sufficient to cover

remaining costs related to construction of the facility and operations for the first three to four years. Construction was completed near the end of 2010 and the plant is now operational. The yield to maturity on these funds as of February 28, 2011 is 0.75%. On February 28, 2011, the portfolio showed an unrealized loss of \$285,856.96. The weighted average days-to-maturity was 74 days. Most investments are being held in very short maturity/low yield investments.

### **Compliance**

California State law and the City's Investment Policy set certain legal standards for allowable investments that can be included in the City's portfolio. Additionally, there are certain maximum limits for classes of investments, as well as minimum credit quality requirements. In testing for compliance, the City considers all funds under the direct control and invested directly by the City including the pooled portfolio and the Water Treatment Facility account. Bond proceeds and the Cemetery and Mausoleum Perpetual Care Funds are excluded.

The following tables summarize portfolio compliance as of February 28, 2011; all investments were in compliance with State law and the City's Investment Policy at the time of purchase. State law requires that any investment subject to a credit downgrade subsequent to the time of purchase shall be reviewed for possible sale within a reasonable amount of time after the downgrade. As of the date of this report, the portfolio includes no bonds that have been downgraded since the time of purchase and all remaining corporate bonds are FDIC insured and rated AAA.

Further detail regarding City compliance with State law and City investment guidelines is presented as follows:

**Certification**

In compliance with California Government Code Section 53546 as amended January 1, 1996, I hereby certify that sufficient investment liquidity and anticipated revenues are available to meet the City's budgeted expenditure requirements for the next six months.

---

Carol Swindell, Director of Finance/City Treasurer
