

# Information Item

**Date: June 12, 2012**

To: Mayor and City Council  
From: Gigi Decavalles-Hughes, Director of Finance/City Treasurer  
Subject: City Monthly Cash and Investment Report for January 2012

## **Introduction**

In compliance with the City Charter, State law, and the City's Investment Policy, the attached monthly report provides information concerning City investments and cash held and/or managed by the Director of Finance/City Treasurer as of January 31, 2012.

## **Discussion**

The January 2012 Investment Report highlights changes from December. The value of cash and investments held in the pooled portfolio decreased by \$39.5 million to \$580.0 million, primarily due large payments to Metro related to the Expo project. The pooled portfolio yield-to-maturity of 0.98% was two basis points higher than in December, but twenty basis points less than one year earlier. Investment earnings for the month were \$0.6 million. Fiscal year-to-date earnings are down 5.4% from the same period last year. Interest rates have remained near record lows resulting in callable investments being called and reinvested in lower yielding investments. Current projections are that FY 2011-12 interest earnings (exclusive of year-end adjustments) will be similar to FY 2010-11 results. However, earnings could fall short of expectations without some modest upturn in interest rates.

In addition to the pooled portfolio, the City's total cash holdings as of January 31, 2012 included \$28.8 million in Charnock settlement-related funds held in an escrow account at Union Bank, \$142.2 million in debt proceeds held in trust with various fiscal agents, \$11.6 million in other funds held in trust, and \$54,022 in petty cash/change funds for a total

balance of \$762.8 million.

In compliance with Governmental Accounting Standards, the Monthly Cash and Investment Report provides the fair market value of all investments held by the City, with certain exceptions, as of the last day of the month. The fair market value may be greater or less than the original purchase price (book/reported value) of the investments due to fluctuations in the market resulting in either an unrealized gain or loss for financial disclosure purposes only. Since it is the City's policy to hold most securities to maturity, these fluctuations in market value do not affect the redemption value of the securities or the overall yield to maturity of the portfolio. The book values of investments shown in this report are exclusive of amortization/accretion of premiums/discounts. As of January 31, 2012, the market value of the City's portfolio was about \$0.5 million greater than the book value.

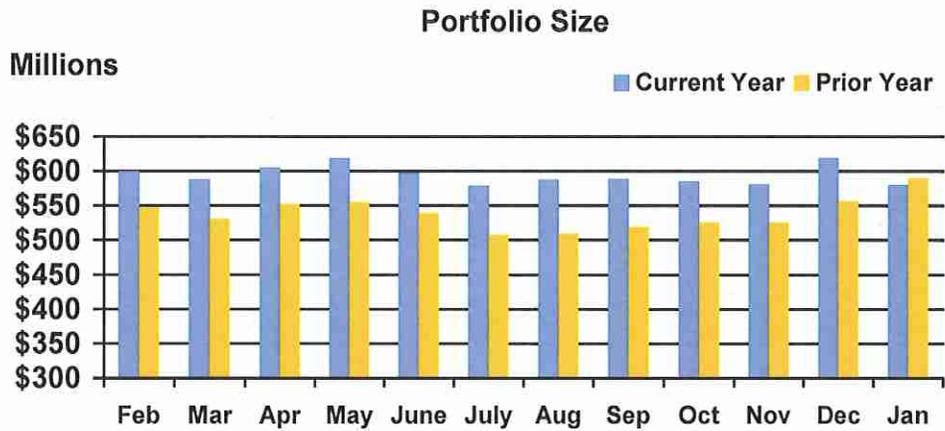

Attached is a summary of investment activity as well as a detailed report of public monies held by the City Treasurer for the month of January 31, 2012.

Prepared by: David Carr, Treasury Administrator

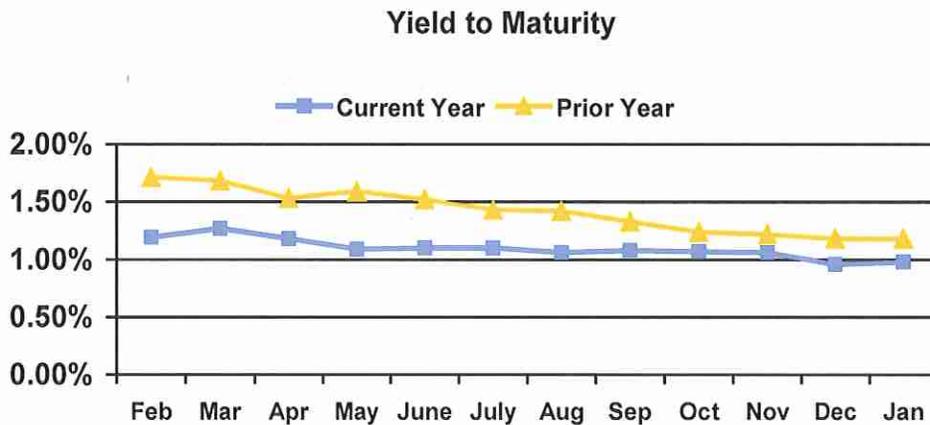

Attachments: 1 – Investment Highlights  
2 – Investment Report

# Investment Highlights

## January 31, 2012

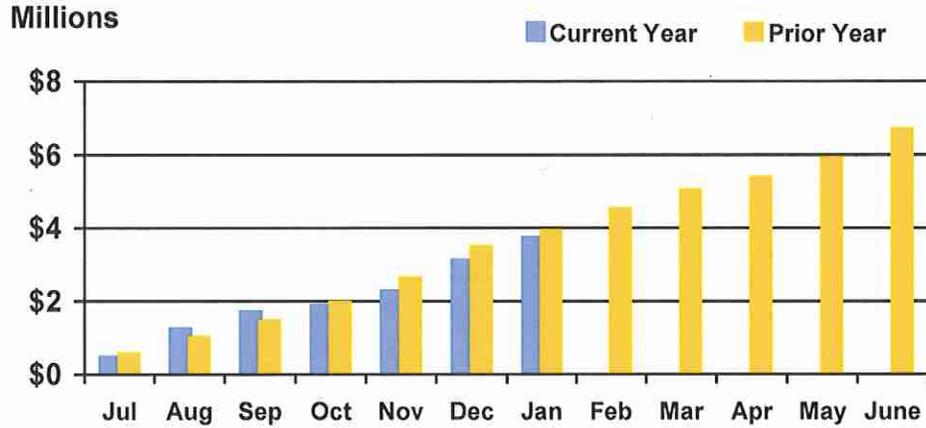

- As of January 31, the portfolio size is \$580.0 million, \$39.5 million less than in December and \$10.2 million less than in January 2011.

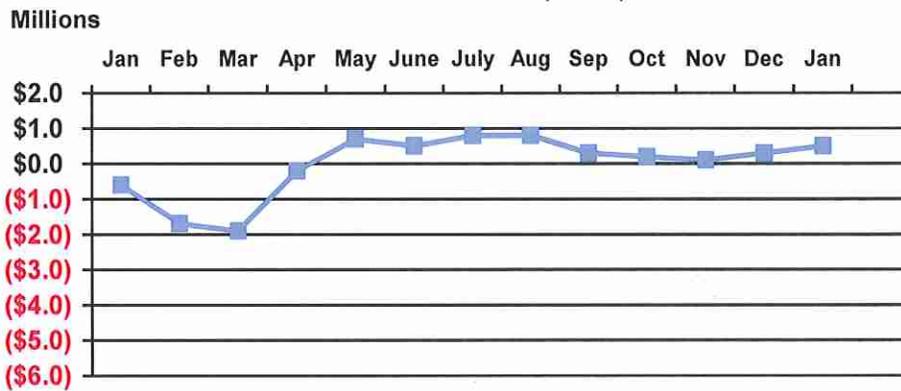

- As of January 31, yield to maturity is 0.98%.
- Increase of two basis points from December, but decrease of twenty basis points from one year earlier.

### Fiscal Year-to-Date Interest Earnings (Cumulative by Month)

- January fiscal year-to-date earnings were 5.4% less than for the same period one year earlier.

### Unrealized Gain/(Loss)

- The unrealized gain of \$0.5 million reported as of January 31, 2012 is the difference between market value and the unamortized book value (purchase price).

**City of Santa Monica**  
**Report of Public Monies Held by the City Treasurer**  
**As of January 31, 2012**

- (1) This is the actual bank account balance as of 1/31/12. It only reflects checks and warrants that have been presented for payment and deposits received by the bank. The balance on deposit per the City books would reflect reductions for all checks and warrants issued and an increase for all deposits transmitted. Redevelopment Agency, Housing Authority, and Parking Authority Funds included in totals.
- (2) The City of Santa Monica Housing Authority administers the Family Self Sufficiency Program. An escrow account is set up for each family in the program. The Housing Authority maintains and releases the escrow funds as required by HUD regulations.
- (3) The Cemetery Perpetual Care Funds and the Mausoleum Perpetual Care Funds are held in trust by Charles Schwab & Company, Inc. and administered by the investment firm RNC Genter Capital Management Company. Market value is shown since a large portion of the portfolio is in equities.
- (4) HUD Depository account is used to receive monthly housing assistance payments from HUD.

**City of Santa Monica**  
**Cash Receipts, Disbursements and Cash Balances\***

Pursuant to Section 711d of the City Charter, I submit the following:

Cash and Investments - December 31, 2011	619,466,140.32
Receipts	50,034,691.96
Disbursements	(89,467,995.40)
Cash and Investments - January 31, 2012	\$580,032,836.88

\* Pooled portfolio only. Excludes certain investments held in trust by third parties

Gigi Decavalles-Hughes  
Director of Finance/City Treasurer

Overview

As of January 31, 2012, total City cash and investments were \$762.8 million, a \$45.8 million decrease from December. The pooled portfolio decreased by \$39.5 million, primarily due to payments to Metro related to the Expo light rail project. Restricted Cash/Investments Held in Trust decreased by \$5.5 million reflecting January debt service payments. Total cash and investments are categorized as follows:

Petty Cash	\$	54,022.00
Pooled Investment Portfolio	\$	580,032,836.88
Restricted Cash/Investment Held in Trust	\$	142,222,687.66
Charnock Settlement Funds	\$	28,816,602.61
Other Funds Held in Trust	\$	11,633,251.13
Total	\$	<u>762,759,400.28</u>

Definitions

- Basis Point – One hundredth of one percent (.01%)
- Book (Reported) Value – The price paid for the security at purchase.
- Bullets – A security with a fixed coupon or interest rate that cannot be redeemed by the issuer before the maturity date.
- Callable Securities – A security that can be redeemed by the issuer before the maturity date.
- Duration – A measure of the timing of the cash flows, such as the interest payments and the principal repayment, to be received from a security. The duration of a security is a useful indicator of its price volatility for given changes in interest rates.
- Market Value – The price at which a security is currently trading and could be presumably bought or sold.
- Par Value – The full face value of the security.
- Rebalancing – Strategy whereby low yielding securities are sold at a loss with the proceeds used to purchase higher yielding securities.
- TLGP (Temporary Loan Guarantee Program) – Federal program through which the Federal Deposit Insurance Corporation guarantees repayment of certain bonds issued by financial institutions.
- Unrealized Gain/Loss – Difference between the current market value and purchase price (book value) of a security.

- Yield to Maturity – The rate of return of a security held to maturity when both interest payments and the investor's gain or loss (premium paid or discount taken) on the security is taken into account.

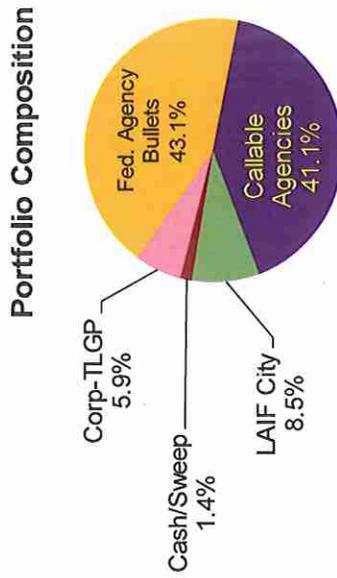

**Pooled Investment Portfolio**

As of January 31, 2011, the portfolio size (unamortized book value/purchase price) of City pooled cash and investments is \$580.0 million, a \$39.5 million decrease from December. Since the City holds most investments to maturity, variations in portfolio book value are typically due to receipt and expenditure patterns during the month rather than any realized gains or losses on securities. Additionally, the City does not amortize premiums or accrete discounts except for financial reporting purposes on the last day of each fiscal year. As noted above, the decrease primarily reflects large expenditures for related to the Expo project. Sixteen investments were made during the month (\$57.6 million), two investments matured (\$17 million), and eleven investments were called (\$51.5 million). No investments were sold. State Local Agency Investment Fund (LAIF) account balances were \$2.1 million more than in December. The balance of the money market sweep account as of January month-end was \$6.9 million.

Details of the main portfolio follow.

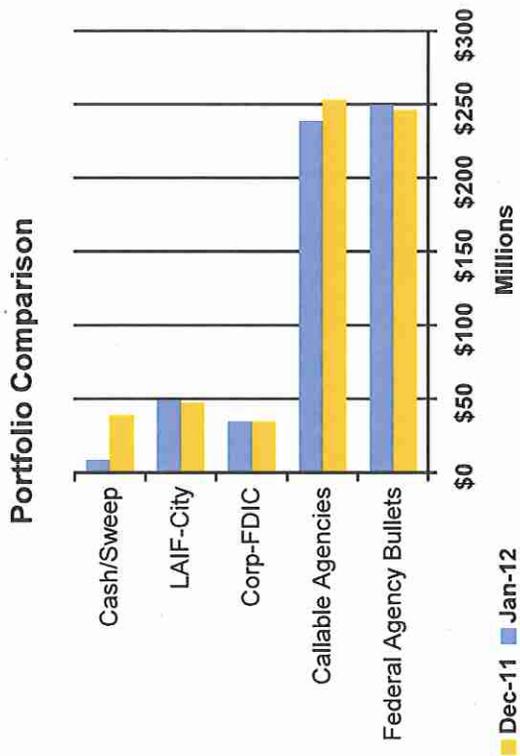

**Portfolio Composition**

The portfolio is appropriately diversified and is in compliance with the City's Investment Policy and applicable provisions of the State Government Code. The largest sector of the portfolio is Federal Agency Securities (84.2%). The remaining 15.8% is invested in the State Local Agency Investment Fund (8.5%); corporate notes (5.9%), all of which are currently FDIC insured bonds (AAA rated) issued under the FDIC's Temporary Liquidity Guarantee Program (TLGP); and cash including the money market sweep account (1.4%). This portfolio mix allows the City to maintain its primary investment objectives of safety and liquidity while attaining a rate of return consistent with the City's Investment Policy and Investment Plan.

**Portfolio Comparison**

The chart to the right shows the overall structure of the portfolio by type of investment compared to last month. There were no material changes in January other than the cash sweep balance returning to a more typical level after a larger than normal balance at the end of the December due investments called and matured at December month-end. The City continues to hold a major balance in short term funds as interest rates remain at historic lows, and LAIF is still a significant benefit over other types of investments with maturities one year and under. The bond market, financial and economic conditions, and portfolio structure are continuously evaluated when making investment decisions.

**Rebalancing of Portfolio**

No portfolio rebalancing occurred in January due to the low interest rate environment. As noted in previous reports, rebalancing opportunities will be evaluated when rates begin to show a consistent pattern of increase.

**Portfolio Yield**

The portfolio yield-to-maturity was 0.98% as of January 31, 2012, up two (2) basis points from December, but down twenty (20) basis points from January 2011. The yield remains near the low point for which records are available as the extended record low interest rate environment continues to affect portfolio returns. This month's yield is four hundred twelve (412) basis points below the most recent high mark of 5.1% in September 2007. The chart compares the month-end portfolio yield to the twelve-month moving averages of the two-year Constant Maturing Treasury security yield (CMT) and State Local Agency Investment Fund (LAIF) yield.

Overall, interest rates in the two to five year maturity range were relatively flat in January, but remain near the record lows first reached last year. The twelve month moving average CMT fell three (3) basis points in January and is now four hundred thirty-four (434) basis points off its February 2007 high. Rates are now expected to remain relatively low into 2014. LAIF rates also continue to reflect the low interest rate environment. The twelve month moving average LAIF yield fell to a new record low of 0.43% in January, and has not shown a monthly increase since September 2007. The monthly LAIF yield of 0.39% was unchanged from December, only one basis point more than the lowest month on record.

At its January meeting, the Federal Open Market Committee (Fed) left the target Fed Funds rate unchanged at a range of 0% to 0.25%. The Fed noted that although economic activity, including the labor market, has been showing signs of improvement, only modest growth is anticipated in the near future, hindered in part by the global economic crisis. Therefore, the Fed policy statement indicated for the first time that it intends to keep rates at low levels through late 2014. Preliminary fourth quarter GDP growth was 3%, below the expectations of most economist. A recent Bloomberg survey of economists predicted modest

growth of less than 2.5% in 2012 and 2013. The housing market continues weak, but the labor market has shown signs of recovery. The January unemployment rate fell to 8.3%, the fifth consecutive monthly decrease, and new jobs continue to be added to the work force. The stock market had a strong month as the Dow Jones Industrial Average gained 3.6%.

The City's portfolio yield-to-maturity has decreased significantly over the last four and a half years as interest rates have reached historic lows resulting in many investments being called and reinvested at lower rates. Overall, the yield should remain relatively stable over the next few months. However, more bonds will be called in the next few months as interest rates are expected to remain near historic lows. Eventually the portfolio yield will begin to fall if some uptick in rates does not occur in 2012.

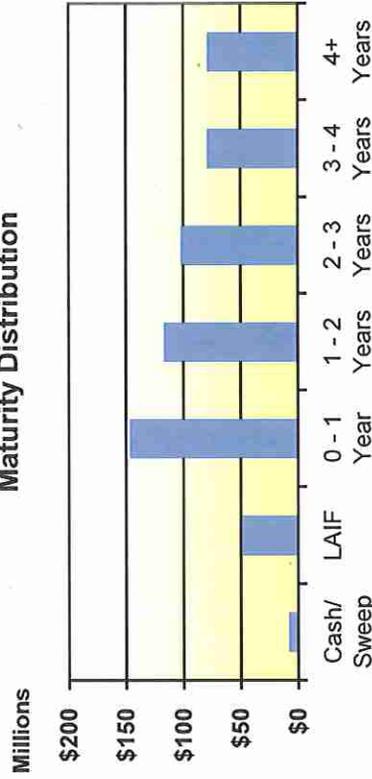

Investment earnings in January were \$0.6 million. Fiscal year-to-date earnings are down 5.4% from the same period last year. For the entire fiscal year, current projections are that investment earnings will be similar to last fiscal year, but a decrease is possible if rates don't begin to show at least a modest upward trend.

**Maturity Distribution**

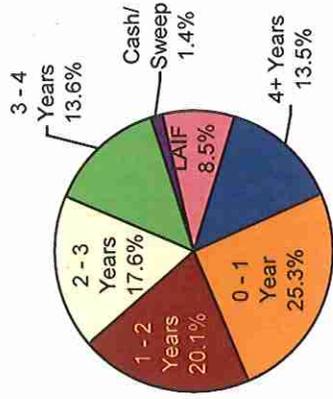

The weighted average days to maturity as of January 31, 2012 is 696 days (1.91 years), twenty-five days more than the prior month. The current volatile and low interest rate environment continues to result in bonds being called, and the portfolio's average days to maturity may vary over the next several months. Investments continue to be made primarily in maturities of three years or less as

rates are not expected to begin a period of significant increase for some time. However, since most of the bonds being called have longer maturities, some bonds of longer maturities are being purchased to replace the called bonds and maintain appropriate

**Maturity Distribution**

**Portfolio Maturities**

diversification in the portfolio.

**Unrealized Gains/Losses**

The Governmental Accounting Standards Board Statement No. 31 (GASB 31) requires public agencies to report all investments, with certain exceptions, at current fair market value rather than at the original purchase price. Current fair market value is defined in GASB 31 as "the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation state."

The current fair market value and unrealized gain/loss of a security do not affect its redemption value or yield if held to maturity. There is an inverse relationship between the price of the bond and the market interest rate. The City's practice is to purchase most securities with the intent to hold them to maturity. Book value and market values are exclusive of interest realized to date on investments. Also, the book value shown is the purchase price and is exclusive of any amortization of premiums or accretion of discounts. As of January 31, 2012, the market value and the book value of the City's pooled investments (excluding cash) are:

Market Value	\$ 579,376,115.67
Book Value (purchase price)	578,847,724.17
	<hr/>
Unrealized Gain/(Loss)	\$ 528,391.50

**Charnock Settlement**

All remaining restricted settlement funds are now held in an escrow account with Union Bank and being used to pay for the operation of the water treatment facility at the Charnock Wells. These funds are invested under the same guidelines as the pooled portfolio with maturity dates to match the estimated cash flow needs of the Water Treatment Facility project. In accordance with the December 2006 settlement agreement, investment income earned in the escrow account is not restricted for use on the project. In August 2009, all investment income earned from date of account opening (December 2006) through July 2009 was transferred to the City (approximately \$9.7 million) and interest is now being transferred on a monthly basis. Funds remaining in the account (approximately \$28.8 million) should be sufficient to cover costs related to operations for the first three to four years. The plant has been operational since the beginning of 2011. The yield to maturity on these funds as of January 31, 2012 is 0.54%. On January 31, 2012, the portfolio showed an unrealized loss of \$112,920.00. The weighted average days-to-maturity was 321 days (0.88 years). Most investments are being held in relatively short maturity/low yield investments.

Compliance

California State law and the City's Investment Policy set certain legal standards for allowable investments that can be included in the City's portfolio. Additionally, there are certain maximum limits for classes of investments, as well as minimum credit quality requirements. In testing for compliance, the City considers all funds under the direct control and invested directly by the City including the pooled portfolio and the Water Treatment Facility account. Bond and loan proceeds, as well as the Cemetery and Mausoleum Perpetual Care Funds are excluded.

The following tables summarize portfolio compliance as of January 31, 2012. All investments were in compliance with State law and the City's Investment Policy at the time of purchase. State law requires that any investment subject to a credit downgrade subsequent to the time of purchase shall be reviewed for possible sale within a reasonable amount of time after the downgrade. As of the date of this report, the portfolio includes no bonds that have been downgraded since the time of purchase and all remaining corporate bonds are FDIC insured and rated AAA.

Further detail regarding City compliance with State law and City investment guidelines is presented as follows:

Portfolio Allocation as of 1/31/12
