

# Information Item

**Date: January 16, 2013**

To: Mayor and City Council  
From: Gigi Decavalles-Hughes, Director of Finance/City Treasurer  
Subject: City Monthly Cash and Investment Report for October 2012

## **Introduction**

In compliance with the City Charter, State law, and the City's Investment Policy, the attached monthly report provides information concerning City investments and cash held and/or managed by the Director of Finance/City Treasurer as of October 31, 2012.

## **Discussion**

The October 2012 Cash and Investment Report provides an updated review of the City's investment portfolio and cash position. The value of cash and investments held in the pooled portfolio increased by \$8.5 million in October to \$568.1 million. The pooled portfolio yield-to-maturity of 0.71% was one less than in September and thirty-six basis points less than one year earlier. Investment income for the month was \$0.4 million. Fiscal year-to-date earnings are down 14.5% from last year. Interest rates have remained near record lows resulting in many callable investments being called and reinvested in lower yielding investments. Additionally, a significant portion of new investments continue to be made in securities with very short maturities pending final resolution of RDA dissolution.

In addition to the pooled portfolio, the City's total cash holdings as of October 31, 2012 included \$28.4 million in Charnock settlement-related funds held in an escrow account at Union Bank, \$79.1 million in debt proceeds held in trust with various fiscal agents, \$68.2 million in other funds held in trust, and \$54,222 in petty cash/change funds for a total balance of \$743.9 million.

In compliance with Governmental Accounting Standards, the Monthly Cash and Investment Report provides the fair market value of all investments held by the City, with certain exceptions, as of the last day of the month. The fair market value may be greater or less than the original purchase price (book/reported value) of the investments due to fluctuations in the market resulting in either an unrealized gain or loss for financial disclosure purposes only. Since it is the City's policy to hold most securities to maturity, these fluctuations in market value do not affect the redemption value of the securities or the overall yield to maturity of the portfolio. The book values of investments shown in this report are exclusive of amortization/accretion of premiums/discounts. As of October 31, 2012, the market value of the City's portfolio was approximately \$0.1 million greater than the book value.

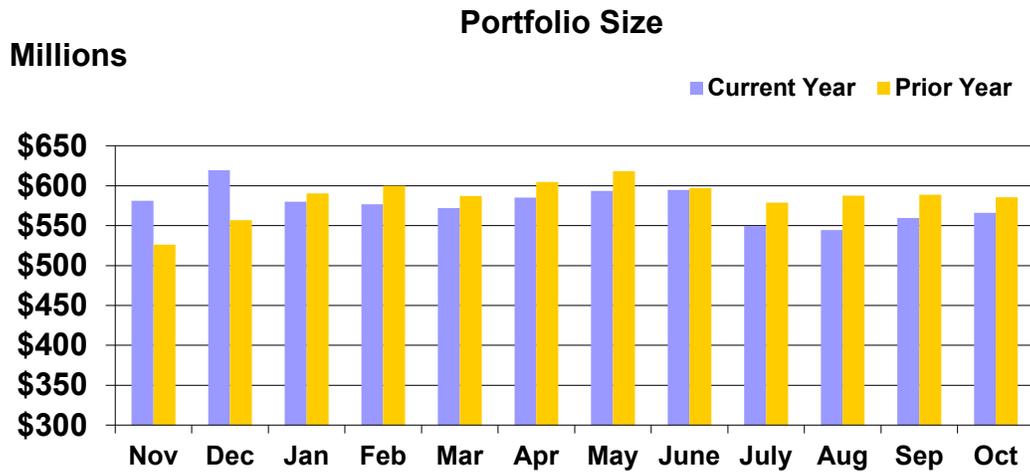

Attached is a summary of investment activity as well as a detailed report of public monies held by the City Treasurer for the month of October 31, 2012.

Prepared by: David Carr, Treasury Administrator

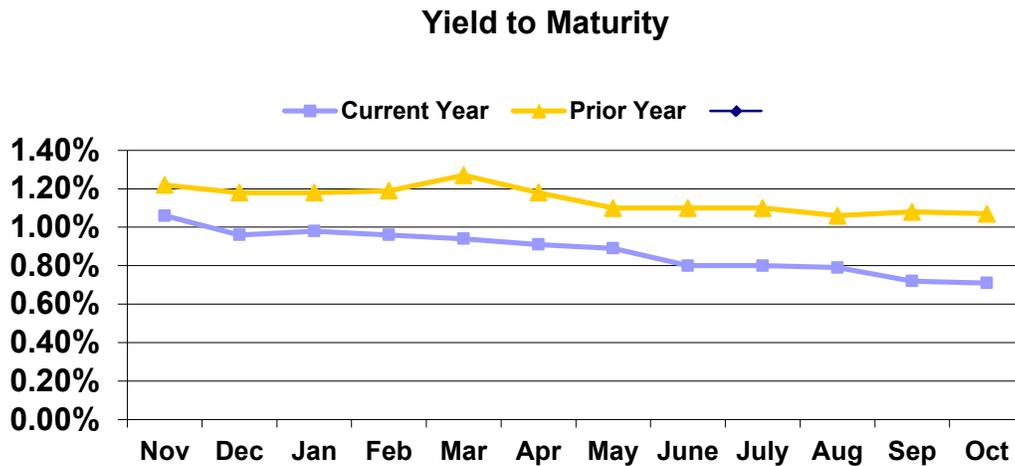

Attachments: 1 – Investment Highlights  
2 – Investment Report

# Investment Highlights

## October 31, 2012

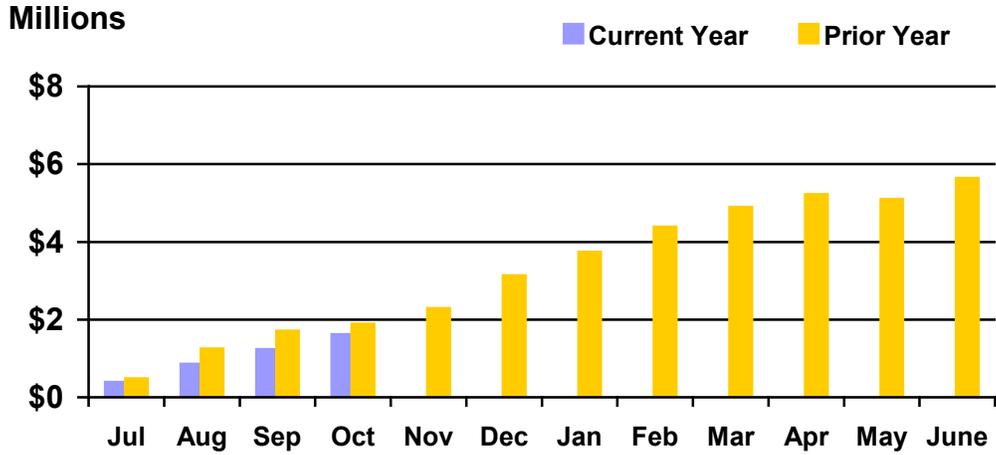

- As of October 31, the portfolio size is \$568.1 million, \$8.5 million more than in September 2012, but \$19.4 million less than in October 2011.

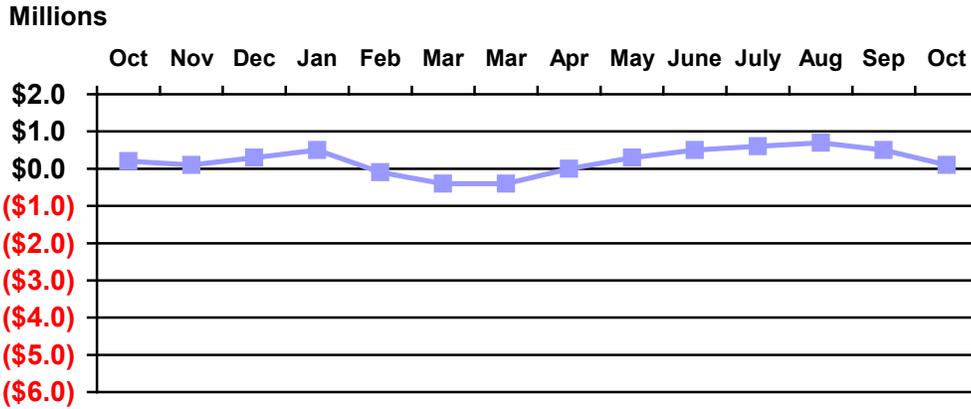

- As of October 31, yield to maturity is 0.71%.
- Down one basis point from September and thirty-six basis points from one year earlier.

### Fiscal Year-to-Date Interest Earnings (Cumulative by Month)

- Year-to-date earnings through October are down 14.5% from one year earlier.

### Unrealized Gain/(Loss)

- As of October 31, 2012, the market value is about \$0.1 million more than the unamortized book value (purchase price).

**City of Santa Monica**  
**Report of Public Monies Held by the City Treasurer**  
**As of October 31, 2012**

- (1) This is the actual bank account balance as of 10/31/12. It only reflects checks and warrants that have been presented for payment and deposits received by the bank. The balance on deposit per the City books would reflect reductions for all checks and warrants issued and an increase for all deposits transmitted. Redevelopment Agency, Housing Authority, and Parking Authority Funds included in totals.
- (2) The City of Santa Monica Housing Authority administers the Family Self Sufficiency Program. An escrow account is set up for each family in the program. The Housing Authority maintains and releases the escrow funds as required by HUD regulations.
- (3) The Cemetery Perpetual Care Funds and the Mausoleum Perpetual Care Funds are held in trust by Charles Schwab & Company, Inc. and administered by the investment firm RNC Genter Capital Management Company. Market value is shown since a large portion of the portfolio is in equities.
- (4) HUD Depository account is used to receive monthly housing assistance payments from HUD.

**City of Santa Monica  
Cash Receipts, Disbursements and Cash Balances\*  
October 31, 2012**

Pursuant to Section 711d of the City Charter, I submit the following:

Cash and Investments - September 30, 2012	\$559,629,557.40
Receipts	54,270,297.92
Disbursements	(45,778,190.97)
Cash and Investments - October 31, 2012	\$568,121,664.35

\* Pooled portfolio only. Excludes certain investments held in trust by third parties

Gigi Decavalles-Hughes  
Director of Finance/City Treasurer

**Overview**

As of October 31, 2012, total City cash and investments were \$743.9 million, a \$1.3 million decrease from September. Restricted Cash/Investments Held in Trust decreased by \$9.8 million reflecting a drawdown of loan and bond proceeds to reimburse the City for eligible capital project expenditures. Exclusive of this \$9.8 million reimbursement, the pooled portfolio decreased by \$1.3 million in October. This is a typical pattern for the month of October where operating expenditures tend to exceed revenues. Total cash and investments are categorized as follows:

Petty Cash	\$	54,222.00
Pooled Investment Portfolio	\$	568,121,664.35
Restricted Cash/Investment Held in Trust	\$	79,115,099.12
Charnock Settlement Funds	\$	28,423,462.86
Other Funds Held in Trust	\$	68,181,696.91
Total	\$	<u>743,896,145.24</u>

**Definitions**

- Basis Point – One hundredth of one percent (.01%)
- Book (Reported) Value – The price paid for the security at purchase.
- Bullets – A security with a fixed coupon or interest rate that cannot be redeemed by the issuer before the maturity date.
- Callable Securities – A security that can be redeemed by the issuer before the maturity date.
- Duration – A measure of the timing of the cash flows, such as the interest payments and the principal repayment, to be received from a security. The duration of a security is a useful indicator of its price volatility for given changes in interest rates.
- Market Value – The price at which a security is currently trading and could be presumably bought or sold.
- Par Value – The full face value of the security.
- Rebalancing – Strategy whereby low yielding securities are sold at a loss with the proceeds used to purchase higher yielding securities.
- TLGP (Temporary Loan Guarantee Program) – Federal program through which the Federal Deposit Insurance Corporation guarantees repayment of certain bonds issued by financial institutions.

- Unrealized Gain/Loss – Difference between the current market value and purchase price (book value) of a security.
- Yield to Maturity – The rate of return of a security held to maturity when both interest payments and the investor’s gain or loss (premium paid or discount taken) on the security is taken into account.

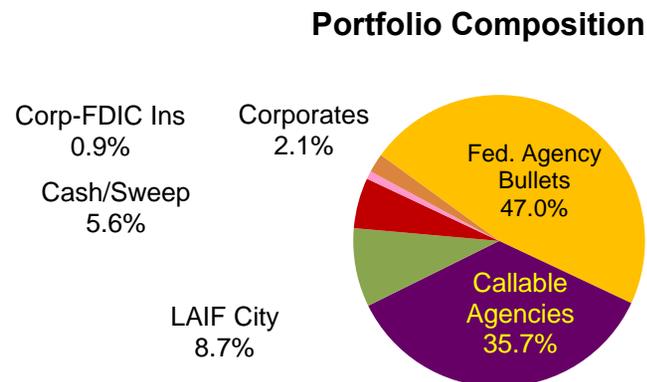

**Pooled Investment Portfolio**

As of October 31, 2012, the portfolio size (unamortized book value/purchase price) of City pooled cash and investments is \$568.1 million, an \$8.5 million increase from September. Since the City holds most investments to maturity, variations in portfolio book value are typically due to receipt and expenditure patterns during the month rather than any realized gains or losses on securities. Additionally, the City does not amortize premiums or accrete discounts except for financial reporting purposes on the last day of each fiscal year. As noted above, the increase primarily reflects drawdowns of bond/loan proceeds to reimburse the City for capital project expenditures. Eleven investments were made during the month (\$75 million), six investments matured (\$49.3 million) and four investments were called (\$16 million). No investments were sold. State Local Agency Investment Fund (LAIF) account balances increased slightly due to a quarterly interest payment in October. The balance of the money market sweep account as of October month-end was \$30.9 million.

Details of the main portfolio follow.

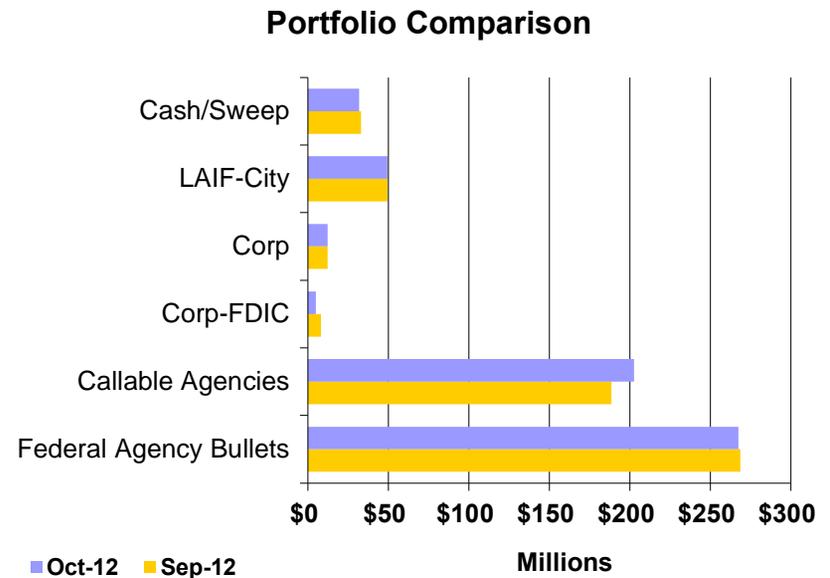

**Portfolio Composition**

The portfolio is appropriately diversified and is in compliance with the City’s Investment Policy and applicable provisions of the State Government Code. The largest sector of the portfolio is Federal Agency Securities (82.7%). The remaining 17.3% is invested in the State Local Agency Investment Fund (8.7%); FDIC insured (AAA rated) corporate bonds (0.9%), other corporate bonds (2.1%), and cash including the money market sweep account (5.6%). This portfolio mix allows the City to maintain its primary investment objectives of safety and liquidity while attaining a rate of return consistent with the City’s Investment Policy and Investment Plan.

**Portfolio Comparison**

The chart to the right shows the overall structure of the portfolio by type of investment compared to last month. There were no material changes in October. The City continues to hold a significant portion of the portfolio in short term funds as interest rates remain at historic lows, and LAIF is still a significant benefit over other types of investments with maturities two years and under. Additionally, the portfolio is being kept very liquid reflecting continuing uncertainty regarding the impact of RDA dissolution on cash flow needs. The bond market, financial and economic conditions, and portfolio structure are continuously evaluated when making investment decisions.

**Rebalancing of Portfolio**

No portfolio rebalancing occurred in October due to the low interest rate environment. As noted in previous reports, rebalancing opportunities will be evaluated when rates begin to show a consistent pattern of increase.

**Portfolio Yield**

The portfolio yield-to-maturity was 0.71% as of October 31, 2012, down one (1) basis point from September and thirty-six (36) basis points from October 2011. The month-end yield is another new low point for the time period for which records are available as the extended record low interest rate environment continues to hamper portfolio returns. Additionally, as noted earlier, a significant amount of the portfolio is being held in very liquid investments with short maturities pending final resolution of the impact of RDA dissolution. This month's yield is four hundred thirty-nine (439) basis points below the most recent high mark of 5.1% in September 2007. The chart compares the month-end portfolio yield to the twelve-month moving averages of the two-year Constant Maturing Treasury security yield (CMT) and State Local Agency Investment Fund (LAIF) yield.

**Portfolio Yield**

Overall, October interest rates in the two to five year maturity range rose in October, but remained near record low levels. The month-end two year CMT rose seven basis points to 0.3%, and the twelve month moving average CMT rose one basis point to 0.27%, four hundred forty-six (446) basis points off its February 2007 high. Rates are now expected to remain relatively low into 2015. LAIF rates also remain at historic low points. The twelve month moving average LAIF yield fell one basis point in October to another new record low of 0.37% and has not shown a monthly increase for five years.

At its October 2012 meeting, the Federal Open Market Committee (Fed) left the target Fed Funds rate unchanged at a range of 0% to 0.25%. In its meeting statement, the Fed noted that the economy is showing signs of moderate growth.

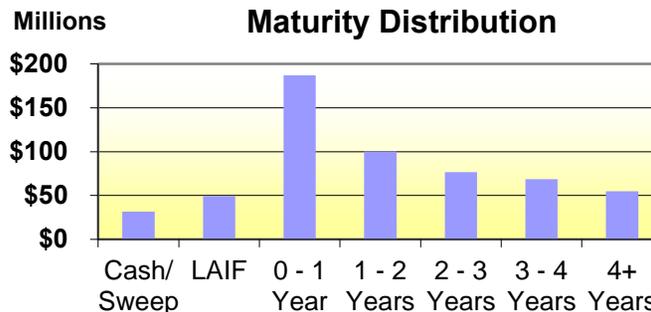

The statement noted again that under the current fiscal outlook, interest rates are expected to remain low into mid-2015. Third quarter GDP growth was 3.1%, over one percentage point higher than preliminary estimates. Most recent economic projections predict modest annualized growth of less than 2.6% through 2014. The housing market continues to show some improvement and the labor market has also shown some modest improvement as the unemployment rate was 7.9% in October, the second consecutive month under 8% after forty-third consecutive months over 8%. However, the creation of new jobs in the work force remains below levels necessary for a strong economic recovery. Consumer spending continued positive, but business investment remained sluggish. The stock market pulled back some in October after showing strength in the prior four months as the Dow Jones Industrial Average fell by 2.5%.

The City’s portfolio yield-to-maturity has decreased significantly over the last five years as interest rates have reached historic lows resulting in many investments being called and reinvested at lower rates. Overall, the yield will likely continue to fall some over the next few months unless some unanticipated uptick in rates occurs.

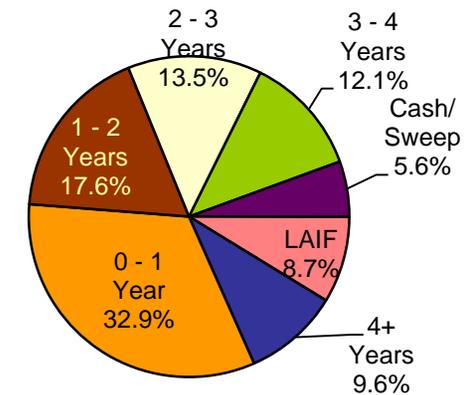

Portfolio investment income was \$0.4 million in October. Fiscal year-to-date earnings are down 14.5% from a year earlier.

**Maturity Distribution**

The weighted average days to maturity as of October 31, 2012 is 600 days (1.64 years), an increase of eleven days from the prior month. The current volatile and low interest rate environment continues to result in bonds being called, and the portfolio’s average days to maturity will likely continue to vary over the next several months. Investments continue to be made primarily in maturities of three years or less as rates are now expected to remain low into 2015. Additionally, the City is maintaining additional liquidity in the portfolio pending the final impact of RDA dissolution, which further lowers the average days to maturity.

**Portfolio Maturities**

**Unrealized Gains/Losses**

The Governmental Accounting Standards Board Statement No. 31 (GASB 31) requires public agencies to report all investments, with certain exceptions, at current fair market value rather than at the original purchase price. Current fair market value is defined in GASB 31 as “the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation state.”

The current fair market value and unrealized gain/loss of a security do not affect its redemption value or yield if held to maturity. There is an inverse relationship between the price of the bond and the market interest rate. The City’s practice is to purchase most securities with the intent to hold them to maturity. Book value and market values are exclusive of interest realized to date on investments. Also, the book value shown is the purchase price and is exclusive of any amortization of premiums or accretion of discounts. As of October 31, 2012, the market value and the book value of the City’s pooled investments (excluding cash) are:

Market Value	\$	567,357,189.06
Book Value (purchase price)		567,300,335.44
Unrealized Gain/(Loss)	\$	56,853.62

**Charnock Settlement**

All remaining restricted settlement funds are now held in an escrow account with Union Bank and being used to pay for the operation of the water treatment facility at the Charnock Wells. These funds are invested under the same guidelines as the pooled portfolio with maturity dates to match the estimated cash flow needs of the Water Treatment Facility project. In accordance with the December 2006 settlement agreement, investment income earned in the escrow account is not restricted for use on the project. In August 2009, all investment income earned from date of account opening (December 2006) through July 2009 was transferred to the City (approximately \$9.7 million) and interest is now being transferred on a monthly basis. Funds remaining in the account (approximately \$28.4 million) should be sufficient to cover costs related to operations for the next several years. The plant has been operational since the beginning of 2011. As of October 31, 2012, the yield to maturity on these funds 0.23%, and the portfolio showed an unrealized loss of \$136,320. The weighted average days-to-maturity was 102 days (0.28 years). Most investments are being held in relatively short maturity/low yield investments.

**Compliance**

California State law and the City’s Investment Policy set certain legal standards for allowable investments that can be included in the City’s portfolio. Additionally, there are certain maximum limits for classes of investments, as well as minimum credit quality requirements. In testing for compliance, the City considers all funds under the direct control and invested directly by the City including the pooled portfolio and the Water Treatment Facility account. Bond and loan proceeds, as well as the Cemetery and Mausoleum Perpetual Care Funds are excluded.

The following tables summarize portfolio compliance as of October 31, 2012. All investments were in compliance with State law and the City’s Investment Policy at the time of purchase. State law requires that any investment subject to a credit downgrade subsequent to the time of purchase shall be reviewed for possible sale within a reasonable amount of time after the downgrade. As of the date of this report, the portfolio includes no bonds that have been downgraded since the time of purchase and all remaining corporate bonds are FDIC insured and rated AAA.

Further detail regarding City compliance with State law and City investment guidelines is presented as follows:
