

Information Item

Date: September 18, 2013

To: Mayor and City Council
From: Gigi Decavalles-Hughes, Director of Finance/City Treasurer
Subject: City Monthly Cash and Investment Report for June 2013

Introduction

In compliance with the City Charter, State law, and the City's Investment Policy, the attached monthly report provides information concerning City investments and cash held and/or managed by the Director of Finance/City Treasurer as of June 30, 2013.

Discussion

The June 2013 Cash and Investment Report provides an updated review of the City's investment portfolio and cash position. The value of cash and investments held in the pooled portfolio increased by \$12.4 million in June to \$644 million reflecting the revenue and expenditure pattern for the month. The pooled portfolio yield-to-maturity of 0.6% reflects a decrease of one basis point from May and twenty basis points from one year earlier. The portfolio showed a net loss of \$100,000 in June due the recognition of several large premiums. Depending on market and interest rate movements, the City may pay a premium to purchase an investment (amount above the par or face value of the bond) or purchase an investment at a discount (amount below the par or face value of the bond). The City does not amortize premiums or accrete discounts over the life of the bonds. Therefore, the full premium or discount is recognized at the time of bond maturity. During the month of June, five investments matured with unamortized premiums totaling nearly \$650,000. Exclusive of the recognition of these premiums, investment income for the month was approximately \$560,000. Fiscal year 2012/13 earnings ended the year down 39% from last fiscal year.

Although interest rates have recently shown an upward movement, they remain low on a historical basis. Additionally, a significant portion of new investments continue to be made in securities with very short maturities with low yields pending final resolution of RDA dissolution.

In addition to the pooled portfolio, the City's total cash holdings as of June 30, 2013 included \$53.2 million in debt proceeds held in trust with various fiscal agents, \$61.9 million in other funds held in trust, and \$53,122 in petty cash/change funds for a total balance of \$759.1 million.

In compliance with Governmental Accounting Standards, the Monthly Cash and Investment Report provides the fair market value of all investments held by the City, with certain exceptions, as of the last day of the month. The fair market value may be greater or less than the original purchase price (book/reported value) of the investments due to fluctuations in the market resulting in either an unrealized gain or loss for financial disclosure purposes only. Since it is the City's policy to hold most securities to maturity, these fluctuations in market value do not affect the redemption value of the securities or the overall yield to maturity of the portfolio. The book values of investments shown in this report are exclusive of amortization/accretion of premiums/discounts. As of June 30, 2013, the market value of the City's portfolio was approximately \$2.8 million less than the book value.

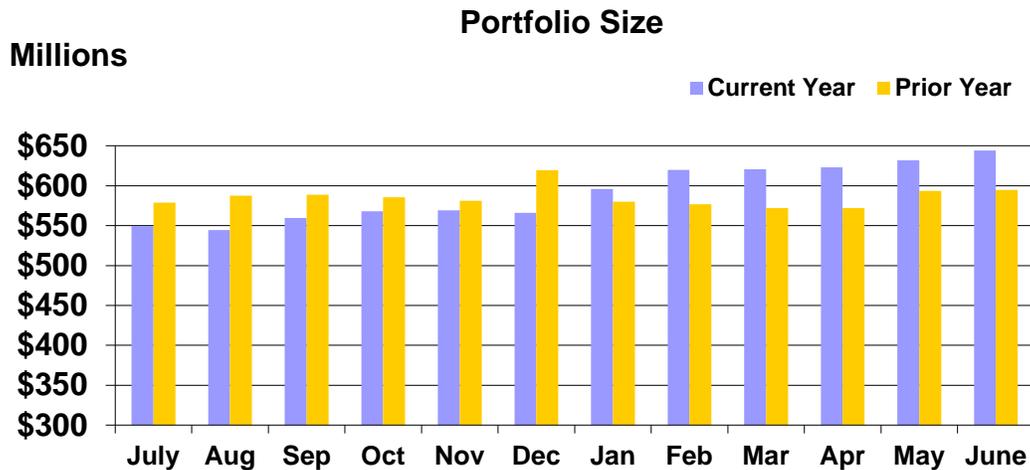

Attached is a summary of investment activity as well as a detailed report of public monies held by the City Treasurer as of June 30, 2013.

Prepared by: David Carr, Assistant City Treasurer

Investment Highlights

June 30, 2013

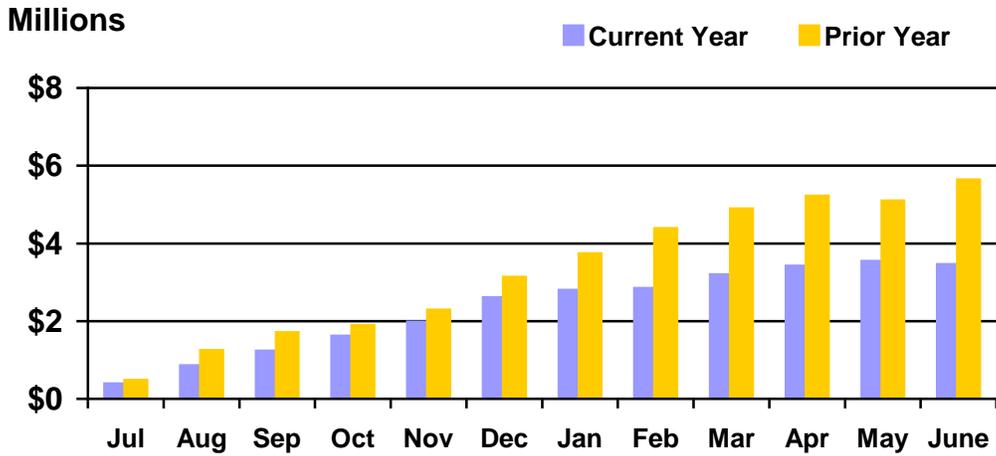

- As of June 30, 2013, the portfolio size is \$644 million, \$12.4 million more than in the prior month and \$49.3 million more than one year earlier.
- The increase from last year largely reflects the consolidation of the Charnock portfolio and the pooled portfolio. In addition, no one-time CalPERS pay down was made in FY 2012-13.

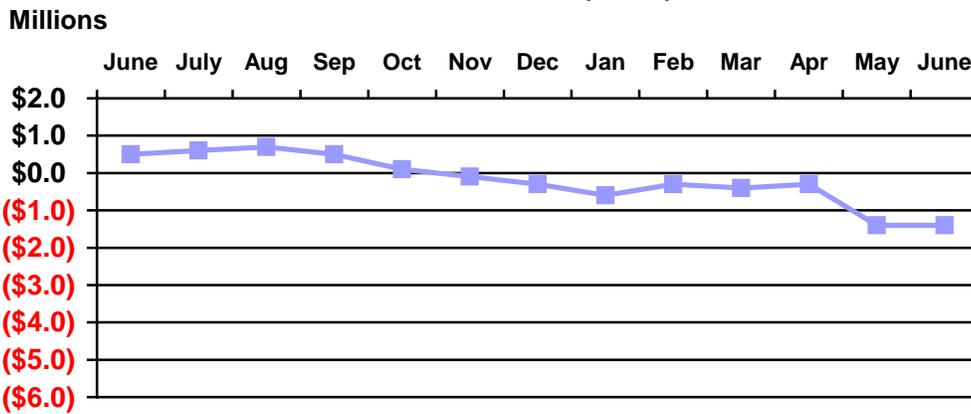

- As of June 30, 2013, yield to maturity is 0.60%.
- Down one basis point from the prior month and twenty basis points from one year earlier.

Fiscal Year-to-Date Interest Earnings (Cumulative by Month)

- FY 2012/13 earnings were down 39% from FY 2011/12.

Unrealized Gain/(Loss)

- As of June 30, 2013, the market value is about \$2.8 million less than the unamortized book value (purchase price).

City of Santa Monica
Cash Receipts, Disbursements and Cash Balances*
June 30, 2013

- (1) These are the actual bank account balances as of 6/30/13. They only reflect checks and warrants that have been presented for payment and deposits received by the bank. The balance on deposit per the City books would reflect reductions for all checks and warrants issued and an increase for all deposits transmitted. Housing Authority and Parking Authority Funds are included in totals.
- (2) The City of Santa Monica Housing Authority administers the Family Self Sufficiency Program. An escrow account is set up for each family in the program. The Housing Authority maintains and releases the escrow funds as required by HUD regulations.
- (3) The Cemetery Perpetual Care Funds and the Mausoleum Perpetual Care Funds are held in trust by Charles Schwab & Company, Inc. and administered by the investment firm RNC Genter Capital Management Company. Market value is shown since a large portion of the portfolio is in equities.
- (4) HUD Depository account is used to receive monthly housing assistance payments from HUD.

Pursuant to Section 711d of the City Charter, I submit the following:

Cash and Investments - May 31, 2013	\$631,648,412.22
Receipts	48,874,732.84
Disbursements	(36,554,230.91)
Cash and Investments - June 30, 2013	\$643,968,914.15

* Pooled portfolio only. Excludes certain investments held in trust by third parties

Gigi Decavalles-Hughes
Director of Finance/City Treasurer

Overview

As of June 30, 2013, total City cash and investments (including cash held for the Successor Agency to the Redevelopment Agency) were \$759.1 million, a \$41.1 million increase from the prior month. The increase primarily reflects a semiannual Redevelopment Property Tax Trust Fund (RPTTF) allocation to the Successor Agency (\$29.5 million). Additionally, the pooled portfolio increased by \$12.4 million during the month reflecting the revenue and expenditure pattern for the month. Total cash and investments are categorized as follows:

Petty Cash	\$	53,572.00
Pooled Investment Portfolio	\$	643,968,914.15
Restricted Cash/Investment Held in Trust	\$	53,213,272.37
Other Funds Held in Trust	\$	61,912,310.93
Total	\$	<u>759,148,069.45</u>

Definitions

- Basis Point – One hundredth of one percent (.01%)
- Book (Reported) Value – The price paid for the security at purchase
- Bullets – A security with a fixed coupon or interest rate that cannot be redeemed by the issuer before the maturity date
- Callable Securities – A security that can be redeemed by the issuer before the maturity date
- Duration – A measure of the timing of the cash flows, such as the interest payments and the principal repayment, to be received from a security. The duration of a security is a useful indicator of its price volatility for given changes in interest rates.
- Market Value – The price at which a security is currently trading and could be presumably bought or sold
- Par Value – The full face value of the security
- Rebalancing – Strategy whereby low yielding securities are sold at a loss with the proceeds used to purchase higher yielding securities
- Corporation guarantees repayment of certain bonds issued by financial institutions
- Unrealized Gain/Loss – Difference between the current market value and purchase price (book value) of a security
- Yield to Maturity – The rate of return of a security held to maturity when both interest payments and the investor's gain or loss (premium paid or discount taken) on the security is taken into account

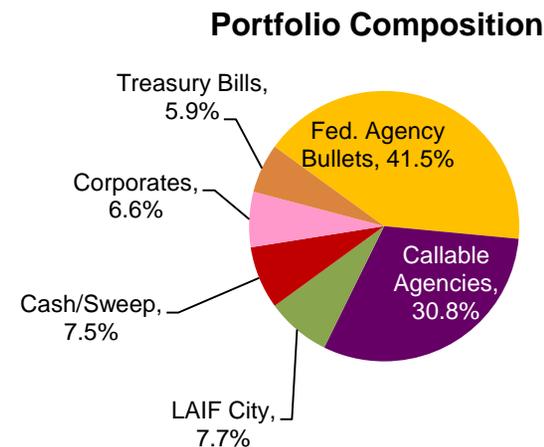

Pooled Investment Portfolio

As of June 30, 2013, the portfolio size (unamortized book value/purchase price) of City pooled cash and investments is \$644.0 million, a \$12.4 million increase from the prior month. Since the City holds most investments to maturity, variations in portfolio book value are typically due to receipt and expenditure patterns during the month rather than any realized gains or losses on securities. Additionally, the City does not amortize premiums or accrete discounts except for financial reporting purposes on the last day of each fiscal year. The increase reflects payment from Los Angeles County for property tax pass-through and RPTTF residual as well as the revenue and expenditure pattern for the month. Thirteen investments were made during the month (\$73.2 million), seven investments matured (\$53.1 million), and two investments were called (\$9 million). No investments were sold. State Local Agency Investment Fund (LAIF) account balance was unchanged in June. The balance of the money market sweep account as of June month-end was \$5 million.

Details of the main portfolio follow.

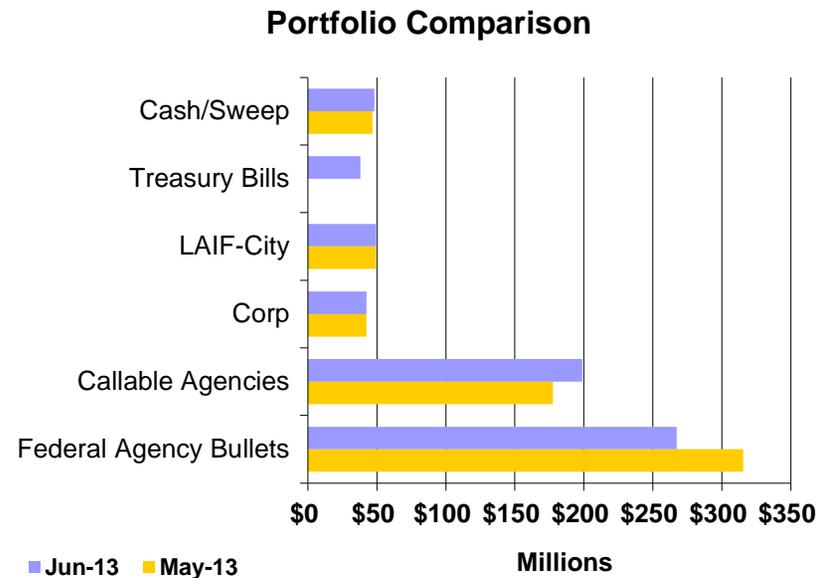

Portfolio Composition

The portfolio is appropriately diversified and is in compliance with the City’s Investment Policy and applicable provisions of the State Government Code. The largest sector of the portfolio is Federal Agency Securities (72.3%). The remaining 27.7% is invested in the State Local Agency Investment Fund (7.7%); corporate bonds (6.6%), Treasury Bills (5.9%), and cash including the money market sweep account (7.5%). This portfolio mix allows the City to maintain its primary investment objectives of safety and liquidity while attaining a rate of return consistent with the City’s Investment Policy and Investment Plan.

Portfolio Comparison

The chart to the right shows the overall structure of the portfolio by type of investment compared to last month. The only significant changes in June were that some of the short term maturities changed from Federal Agency discount notes to Treasury Bills. A large portion of the portfolio is still being kept very liquid reflecting continuing uncertainty regarding the impact of RDA dissolution on cash flow needs. Additionally, the City continues to hold a significant portion of the remainder of the portfolio in short term funds as interest rates, while beginning to show some upward movement, are still near historic lows. The bond market, financial and economic conditions, and portfolio structure are continuously evaluated when making investment decisions.

Rebalancing of Portfolio

No portfolio rebalancing occurred in June due to the low interest rate environment. As noted in previous reports, rebalancing opportunities will be evaluated when rates begin to show a consistent pattern of increase.

Portfolio Yield

The portfolio yield-to-maturity was 0.6% as of June 30, 2013, down one basis point from the prior month and twenty basis points from one year earlier. The extended record low interest rate environment continues to hamper portfolio returns. Although rates did move up in June for the second consecutive month, they still remain at historically low levels. Additionally, as noted earlier, a significant amount of the portfolio is being held in very liquid investments with short maturities pending final resolution of the impact of RDA dissolution. The chart compares the month-end portfolio yield to the twelve-month moving averages of the two-year Constant Maturing Treasury security yield (CMT) and State Local Agency Investment Fund (LAIF) yield.

Overall, interest rates in the two to five year maturity range rose sharply in June based on positive economic news, particularly in the housing market. The two year CMT month-end rate rose six basis points to 0.36% and has now increased fourteen basis points over the last two months, a 64% increase. The twelve month moving average was unchanged at 0.26%. Five year rates spiked up even more climbing thirty-six basis points in June and have more than doubled over the last two months. Rates are still expected to remain relatively low into late 2014 or 2015 unless there are significant improvements in the national unemployment rate before then. LAIF rates also remain at historic low points. The twelve month moving average LAIF yield fell to a new record low of 0.31% in June and has not shown a monthly increase for over five years. The month-end LAIF rate was 0.24%,

The Federal Open Market Committee (Fed) left the target Fed Funds rate at a range of 0% to 0.25% at its June meeting. Job growth continues to expand at a moderate pace, but unemployment remains elevated with the June level unchanged from May at 7.6%. While this was the tenth consecutive month under 8%, the rate has only dropped 0.2% during that time. The Fed still believes that economic growth, while improving, has not reached the point where continued Fed

intervention in the form of low interest rates and accommodative monetary policy is no longer needed. First quarter GDP showed only a 1.1% annual growth rate, and most recent economic projections predict modest annualized growth in the 2% to 3% range through 2014. The housing market continues to improve sharply, both in terms of sales and prices. Consumer spending continues positive, but business investment still remained somewhat sluggish. The stock market, as measured by the Dow Jones Industrial Average, pulled back 1.4% in June after several months of strong gains.

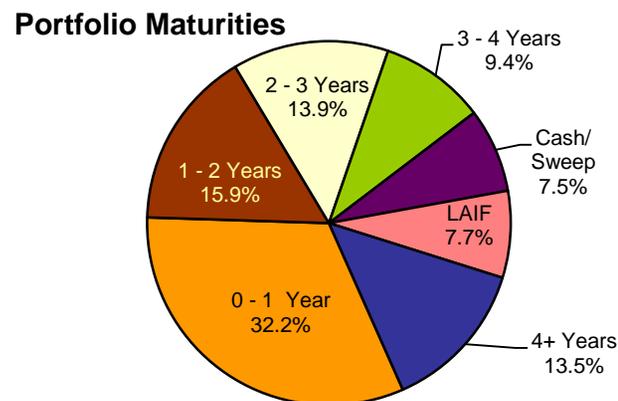

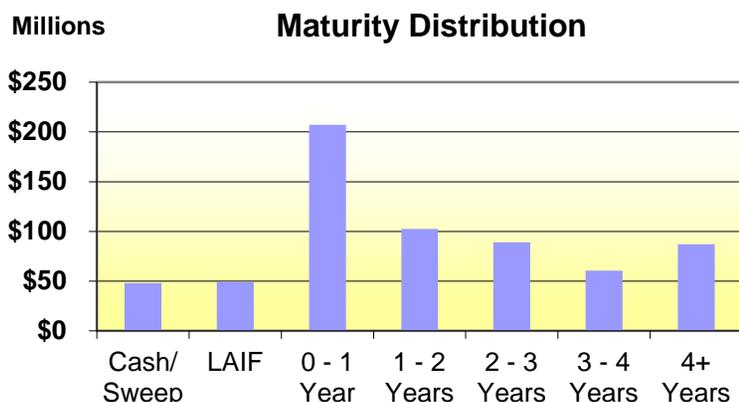

The City's portfolio yield-to-maturity has decreased significantly over the last five years as interest rates have reached historic lows resulting in many investments being called and reinvested at lower rates. Overall, the yield will likely remain relatively flat over the next few months unless some unanticipated uptick in rates occurs and the RDA situation is resolved.

The portfolio showed a net loss of \$0.1 million in June. Portfolio investment income for the fiscal year was nearly 39% less than the year before. As noted earlier, the City does not amortize premiums or accrete discounts except for year-end financial reporting purposes. During the month of June, five investments matured with unamortized premiums totaling nearly \$650,000. Exclusive of the recognition of these premiums, investment income for the month was approximately \$560,000.

Maturity Distribution

The weighted average days to maturity as of June 30, 2013 is 624 days (1.71 years), an increase of thirty-seven days from the prior month. As noted earlier, the City is maintaining more than typical liquidity in the portfolio pending the final impact of RDA dissolution. Nearly two-thirds of the portfolio is now held in maturities of 2 years or less (including cash balances).

As interest rates have started to advance, fewer bonds are being called. However, the interest rate environment is still low compared to historical standards and continues to be volatile. Based on this and pending the final outcome of Redevelopment dissolution, the portfolio's average days to maturity will likely continue to vary over the next several months. While most investments are still being made in shorter term securities, some investments in longer term securities are being made to take advantage of a steepening yield curve. Interest rates are still expected to remain relatively low into late 2014 or early 2015.

Unrealized Gains/Losses

The Governmental Accounting Standards Board Statement No. 31 (GASB 31) requires public agencies to report all investments, with certain exceptions, at current fair market value rather than at the original purchase price. Current fair market value is defined in GASB 31 as “the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation state.”

The current fair market value and unrealized gain/loss of a security do not affect its redemption value or yield if held to maturity. There is an inverse relationship between the price of the bond and the market interest rate. The City’s practice is to purchase most securities with the intent to hold them to maturity. Book value and market values are exclusive of interest realized to date on investments. Also, the book value shown is the purchase price and is exclusive of any amortization of premiums or accretion of discounts. As of June 30, 2013, the market value and the book value of the City’s pooled investments (excluding cash) are:

Market Value	\$ 598,024,871.63
Book Value (purchase price)	600,864,296.82
Unrealized Gain/ (Loss)	\$ (2,839,425.19)

Compliance

California State law and the City’s Investment Policy set certain legal standards for allowable investments that can be included in the City’s portfolio. Additionally, there are certain maximum limits for classes of investments, as well as minimum credit quality requirements. In testing for compliance, the City considers all funds under the direct control and invested directly by the City. Bond and loan proceeds, as well as the Cemetery and Mausoleum Perpetual Care Funds are excluded.

The following tables summarize portfolio compliance as of June 30, 2013. All investments were in compliance with State law and the City’s Investment Policy at the time of purchase. State law requires that any investment subject to a credit downgrade subsequent to the time of purchase shall be reviewed for possible sale within a reasonable amount of time after the downgrade. As of the date of this report, the portfolio includes no bonds that have been downgraded since the time of purchase.

Further detail regarding City compliance with State law and City investment guidelines is presented as follows:

Certification

In compliance with California Government Code Section 53546 as amended January 1, 1996, I hereby certify that sufficient investment liquidity and anticipated revenues are available to meet the City’s budgeted expenditure requirements for the next six months.

Gigi Decavalles-Hughes, Director of Finance/City Treasurer
