

Information Item

Date: June 4, 2014

To: Mayor and City Council
From: Gigi Decavalles-Hughes, Director of Finance/City Treasurer
Subject: City Monthly Cash and Investment Report for March 2014

Introduction

In compliance with the City Charter, State law, and the City's Investment Policy, the attached monthly report provides information concerning City investments and cash held and/or managed by the Director of Finance/City Treasurer as of March 31, 2014.

Discussion

The March 2014 Cash and Investment Report provides an updated review of the City's investment portfolio and cash position. The value of cash and investments held in the pooled portfolio is \$656.8 million. It remained relatively flat in March showing only a \$1.9 million increase from the prior month (0.3%). The pooled portfolio yield-to-maturity of 0.69% is one basis point higher than last month and thirteen basis points higher than in March 2013. Net investment earnings were \$0.1 million. Fiscal year-to-date earnings are 21% less than for the same period last year. The extended low interest rate environment continues to limit investment returns. Additionally, a significant portion of new investments continue to be made in securities with very short maturities and low yields pending final resolution of RDA dissolution.

In addition to the pooled portfolio, the City's total cash holdings as of March 31, 2014 included \$20.3 million in debt proceeds held in trust with various fiscal agents, \$27.8 million in other funds held in trust, and \$28,352 in petty cash/change funds for a total balance of \$704.9 million.

In compliance with Governmental Accounting Standards, the Monthly Cash and Investment Report provides the fair market value of all investments held by the City,

with certain exceptions, as of the last day of the month. The fair market value may be greater or less than the original purchase price (book/reported value) of the investments due to fluctuations in the market resulting in either an unrealized gain or loss for financial disclosure purposes only. Since it is the City's policy to hold most securities to maturity, these fluctuations in market value do not affect the redemption value of the securities or the overall yield to maturity of the portfolio. The book values of investments shown in this report are exclusive of amortization/accretion of premiums/discounts. As of March 31, 2014, the market value of the City's portfolio was approximately \$2.1 million less than the book value.

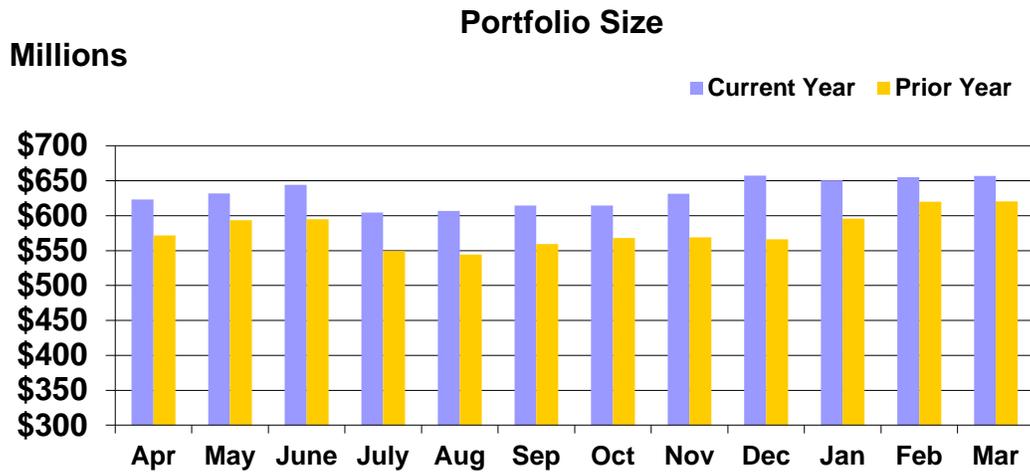

Attached is a summary of investment activity as well as a detailed report of public monies held by the City Treasurer as of March 31, 2014.

Prepared by: David Carr, Assistant City Treasurer

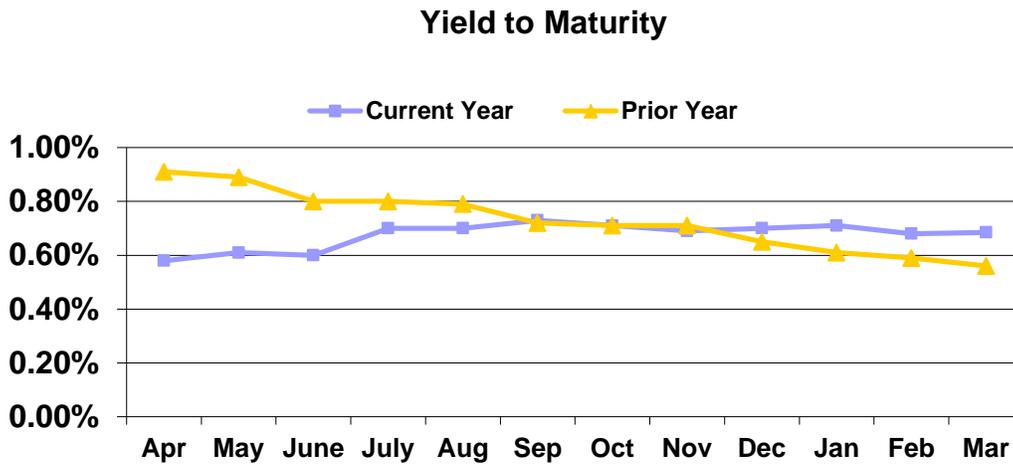

Attachments: 1 – Investment Highlights

Investment Highlights

March 31, 2014

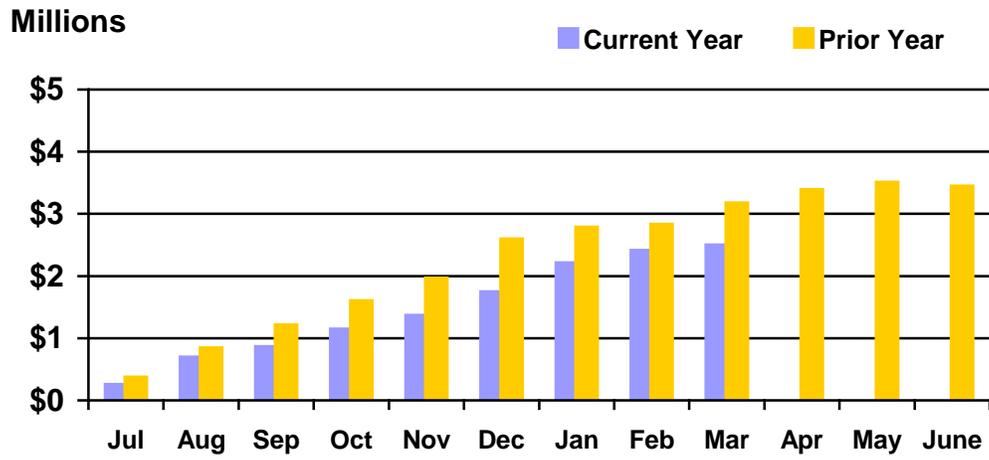

- As of March 31, 2014, the portfolio size is \$656.8 million, \$1.9 million more than in the prior month and \$36.3 million more than one year earlier.

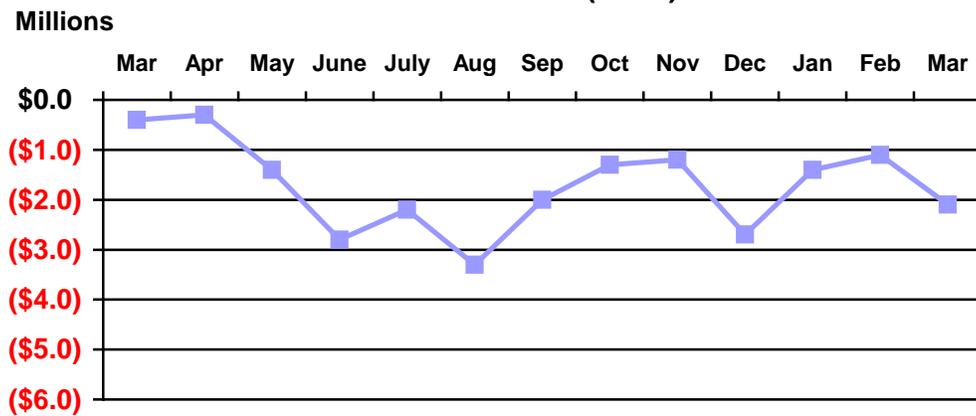

- As of March 31, yield to maturity is 0.70%.
- Up two basis points from the prior month and up fourteen basis points from one year earlier.

Fiscal Year-to-Date Interest Earnings (Cumulative by Month)

- Fiscal year-to-date earnings are down 21% from one year earlier.

Unrealized Gain/(Loss)

- As of March 31, 2014, the market value is about \$2.1 million less than the unamortized book value (purchase price).

City of Santa Monica
Cash Receipts, Disbursements and Cash Balances
March 31, 2014

- (1) These are the actual bank account balances as of 3/31/2014. They only reflect checks and warrants that have been presented for payment and deposits received by the bank. The balance on deposit per the City books would reflect reductions for all checks and warrants issued and an increase for all deposits transmitted. Housing Authority and Parking Authority Funds are included in totals.
- (2) The City of Santa Monica Housing Authority administers the Family Self Sufficiency Program. An escrow account is set up for each family in the program. The Housing Authority maintains and releases the escrow funds as required by HUD regulations.
- (3) The Cemetery Perpetual Care Funds and the Mausoleum Perpetual Care Funds are held in trust by Charles Schwab & Company, Inc. and administered by the investment firm RNC Genter Capital Management Company. Market value is shown since a large portion of the portfolio is in equities.
- (4) HUD Depository account is used to receive monthly housing assistance payments from HUD.

Pursuant to Section 711d of the City Charter, I submit the following:

Cash and Investments - Feb 28, 2014	654,932,833.75
Receipts	42,252,459.10
Disbursements	(40,394,310.29)
Cash and Investments - March 31, 2014	656,790,982.56

Pooled portfolio only. Excludes certain investments held in trust by third parties such as bond proceeds, perpetual care funds, and other escrow accounts.
Also excludes payroll account.

Gigi Decavalles-Hughes
Director of Finance/City Treasurer

Overview

As of March 31, 2014, total City cash and investments (including cash held for the Successor Agency to the Redevelopment Agency) were \$704.9 million, a \$2 million increase from the prior month. Total cash and investments are categorized as follows:

Petty Cash/Change Funds	\$ 28,352.00
Pooled Investment Portfolio	\$ 656,790,982.56
Restricted Cash/Investment Held in Trust	\$ 20,274,728.37
Other Funds Held in Trust	\$ 27,768,743.32
Total	<u>\$ 704,862,806.25</u>

Definitions

- Basis Point – One hundredth of one percent (.01%)
- Book (Reported) Value – The price paid for the security at purchase
- Bullets – A security with a fixed coupon or interest rate that cannot be redeemed by the issuer before the maturity date
- Callable Securities – A security that can be redeemed by the issuer before the maturity date
- Duration – A measure of the timing of the cash flows, such as the interest payments and the principal repayment, to be received from a security. The duration of a security is a useful indicator of its price volatility for given changes in interest rates.
- Market Value – The price at which a security is currently trading and could be presumably bought or sold
- Par Value – The full face value of the security
- Rebalancing – Strategy whereby low yielding securities are sold at a loss with the proceeds used to purchase higher yielding securities
- Corporation guarantees – repayment of certain bonds issued by financial institutions
- Unrealized Gain/Loss – Difference between the current market value and purchase price (book value) of a security
- Yield to Maturity – The rate of return of a security held to maturity when both interest payments and the investor's gain or loss (premium paid or discount taken) on the security is taken into account.

Pooled Investment Portfolio

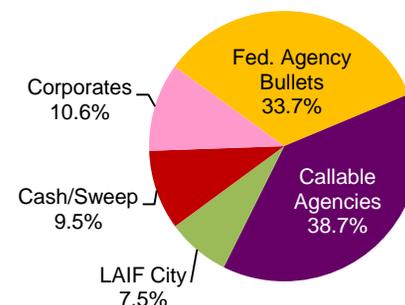

As of March 31, 2014, the portfolio size (unamortized book value/purchase price) of City pooled cash and investments is \$656.8 million, \$1.9 million more than in the prior month. Since the City holds most investments to maturity, variations in portfolio book value are typically due to receipt and expenditure patterns during the month rather than any realized gains or losses on securities. Additionally, the City does not amortize premiums or accrete discounts except for financial reporting purposes on the last day of each fiscal year. Nine investments were made during the month (\$36.0 million), three investments matured (\$11.2 million), and six investments were called (\$16.5 million). No investments were sold. The State Local Agency Investment Fund (LAIF) account balance was essentially unchanged in March. Cash held at Wells Fargo Bank was \$62.7 million as of month-end. Funds on deposit with Wells Fargo earn a net 0.0725%, earnings from which are used as a credit against monthly banking expenses.

Details of the main portfolio follow.

Portfolio Composition

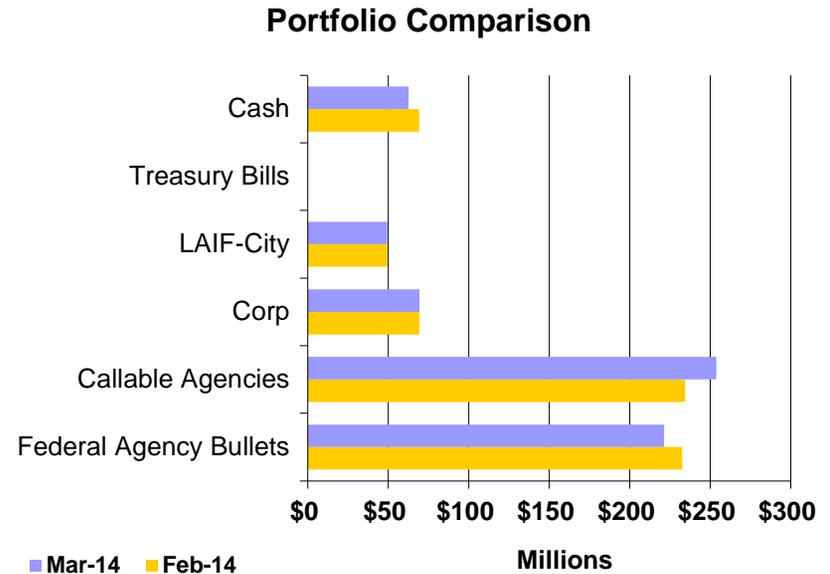

The portfolio is appropriately diversified and is in compliance with the City’s Investment Policy and applicable provisions of the State Government Code. The largest sector of the portfolio is Federal Agency Securities (72.4%). The remaining 27.6% includes the State Local Agency Investment Fund (7.5%); corporate bonds (10.6%), and cash (9.5%). This portfolio mix allows the City to maintain its primary investment objectives of safety and liquidity while attaining a rate of return consistent with the City’s Investment Policy and Investment Plan.

Portfolio Composition

Portfolio Comparison

The chart to the right shows the overall structure of the portfolio by type of investment compared to last month. There were no significant changes in March. A large portion of the portfolio has been kept very liquid reflecting continuing uncertainty regarding the impact of RDA dissolution on cash flow needs. In late October, the City, RDA Successor Agency, and the State Department of Finance entered in a settlement agreement, which will reduce some of the uncertainty over the next several months and eventually allow for increased investment of funds. However, the City continues to hold a significant portion of the remainder of the portfolio in short term funds as interest rates remain near historic lows. The bond market, financial and economic conditions, and portfolio structure are continuously evaluated when making investment decisions.

Rebalancing of Portfolio

No portfolio rebalancing occurred in March due to the low interest rate environment. As noted in previous reports, rebalancing opportunities will be evaluated when rates begin to show a consistent pattern of increase.

Portfolio Yield

The portfolio yield-to-maturity was 0.7% as of March 31, 2014, two basis points higher than last month and fourteen basis points higher than in March of last year. The extended record low interest rate environment continues to hamper portfolio returns as rates remain at historically low levels. Additionally, as noted earlier, a significant amount of the portfolio is being held in very liquid investments with short maturities pending final resolution of the impact of RDA dissolution. The chart compares the month-end portfolio yield to the twelve-month moving averages of the two-year Constant Maturing Treasury security yield (CMT) and State Local Agency Investment Fund (LAIF) yield. The yield-to-maturity does not include the impact of the earnings allowance earned on deposits with Wells Fargo Bank. As noted earlier, these deposits earned a net 0.0725% in March. However, this allowance is not payable to the City in cash and can only be used to offset bank fees. Therefore, this allowance is not included in the yield-to-maturity calculation.

Overall, interest rates in the two to five year maturity range rose sharply in March. The two year CMT month-end rate rose eleven basis points to 0.44%, the highest level since June 2011, just one basis point less than the highest level in the last three years. The twelve month moving average rose one basis point to 0.32%. Rates are still expected to remain relatively low into 2015 unless there are significant improvements in the national unemployment rate and other economic factors before then. The twelve month moving average LAIF yield fell to another record low rate of 0.25% in March and has not shown a monthly increase for over six years. The month-end LAIF rate was 0.23%.

The Federal Open Market Committee (Fed) left the target Fed Funds rate unchanged at a range of 0% to 0.25% at its March meeting. The Fed noted that growth in economic activity slowed during the winter months, in part reflecting

adverse weather conditions. Labor market indicators were mixed but on balance showed further improvement. The unemployment rate, however, remained elevated (6.7%). Household business investment spending continues to improve. However, the continued recovery in the housing market has slowed. First quarter GDP showed a very small 0.1% increase. Most recent economic projections predict annualized growth in the 2.5-3% range through 2014. The stock market, as measured by the Dow Jones Industrial Average continued to be strong, realizing a gain in March of nearly 1%.

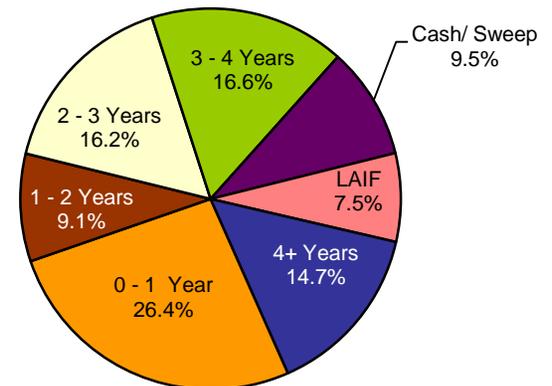

The City’s portfolio yield-to-maturity has decreased significantly over the last five years as interest rates have reached historic lows, resulting in many investments being called and reinvested at lower rates. Overall, the yield will likely remain relatively flat over the next few months unless some unanticipated uptick in rates occurs and the RDA situation is completely resolved.

Net investment income in March was \$0.1 million. Fiscal year-to-date revenues on a cash basis are down 22% from the same period a year ago reflecting the continuing impact of the historically low interest rate environment.

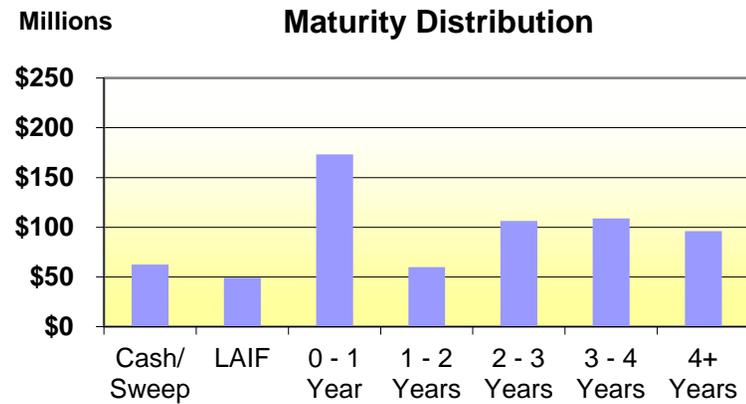

Maturity Distribution

The weighted average days to maturity of the portfolio as of March 31, 2014 is 753 days (2.06 years). This calculation is for invested funds only and does not reflect the City’s primary liquidity funds being held in cash at Wells Fargo Bank. As noted earlier, there are fiscal benefits to this strategy under the current interest rate environment. The City continues to maintain high liquidity in the portfolio pending the final impact of RDA dissolution. Over 52% of the portfolio continues to be held in maturities of 2 years or less (including cash balances).

Portfolio Maturities

As interest rates have started to advance, fewer bonds have been called. However, the interest rate environment is still extremely low compared to historical standards and continues to be volatile. Based on this and pending the final outcome of Redevelopment dissolution including the State Controller’s audit, the portfolio’s average days to maturity will likely continue to vary over the next several months. While most investments are still being made in shorter term securities, some investments in longer term securities are being made to take advantage of a steepening yield curve. As noted earlier, interest rates are still expected to remain relatively low into early 2015.

Unrealized Gains/Losses

The Governmental Accounting Standards Board Statement No. 31 (GASB 31) requires public agencies to report all investments, with certain exceptions, at current fair market value rather than at the original purchase price. Current fair market value is defined in GASB 31 as “the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation state.”

The current fair market value and unrealized gain/loss of a security do not affect its redemption value or yield if held to maturity. There is an inverse relationship between the price of the bond and the market interest rate. The City’s practice is to purchase most securities with the intent to hold them to maturity. Book values are exclusive of interest realized to date on investments. Also, the book value shown is the purchase price and is exclusive of any amortization of premiums or accretion of discounts. As of March 31, 2014, the market value and the book value of the City’s pooled investments (excluding cash) are:

Market Value	\$ 592,027,234.53
Book Value (purchase price)	594,130,882.92
<hr/>	
Unrealized Gain/ (Loss)	\$ (2,103,648.39)

Compliance

California State law and the City's Investment Policy set certain legal standards for allowable investments that can be included in the City's portfolio. Additionally, there are certain maximum limits for classes of investments, as well as minimum credit quality requirements. In testing for compliance, the City considers all funds under the direct control and invested directly by the City. Bond and loan proceeds, as well as the Cemetery and Mausoleum Perpetual Care Funds are excluded.

The following tables summarize portfolio compliance as of March 31, 2014. All investments were in compliance with State law and the City's Investment Policy at the time of purchase and continue to be in compliance. State law requires that any investment subject to a credit downgrade subsequent to the time of purchase shall be reviewed for possible sale within a reasonable amount of time after the downgrade. As noted in prior reports, the City's investment portfolio includes two bonds issued by Berkshire Hathaway Company (BRK) with a total book value of \$5,138,160 that were slightly downgraded in May 2013 from AA+ to AA. The revised rating of AA is still within the second highest category of bond ratings (defined as high quality with a "very strong capacity to meet financial commitments"). Additionally, total holdings in BRK represent a minor (less than 1%) portion of the City portfolio. Based on this, staff continues to recommend holding these securities at this time.

Further detail regarding City compliance with State law and City investment guidelines is presented as follows:
