

## City of Santa Monica - Office of Sustainability and the Environment -- Sustainable Landscape Professionals Program

The following landscape companies have participated in a familiarization training course conducted by the City's Office of Sustainability and the Environment (OSE). The course outlines the City's recommendations for sustainable landscape design, installation and maintenance procedures. These companies must renew their training annually to remain on this list. Training courses are held twice yearly.

- \* These companies have agreed to offer sustainable landscape choices to their clients and to comply with the City's municipal code in all areas of their work within the City.
- \* Companies are listed in alphabetical order within each classification. No recommendation or endorsement is made or implied by inclusion in this list.
- \* Company 'certification' means at least one employee has completed a third party landscape water management certification program, either through the California Landscape Contractors Association's program (CWM) or the Irrigation Association's Certified Landscape Irrigation Auditor (CLIA) program.
- \* Company 'training' means at least one employee has enrolled in either the CWM or CLIA certification program and has attended the corresponding training class but is not yet certified. 'OSE' training means they have attended an OSE sponsored water management training course and passed a water management exam administered by OSE staff.

Revised: 02/02/11

Sustainable Landscape Professionals with Water Management Certification						
Business Name	Contact Name	Telephone	Email and Website	License	Certification	Services Offered
Alternative Maintenance Services, Inc.	Jerry Budnick	310/472-2919	office@alternativemaintenance.com	C27-790287	CLIA	Landscape & irrigation design, installation, maintenance; grading; hardscape, lighting, urban runoff, containers, edibles
