INTERESTS AND EXPERIENCE

Current or prior service on city boards/commissions:

I have not served on a City Board.

Community activities:

I have been involved with the preservation and protection of trees in our community and performed with a trio for several Civic Events.

Qualifications, experience, education, and technical or professional requirements:

My qualification of working as Purser for 25 years with a major airline has given me the experience of following policy and submitting excellent reports. My ability to recognize safety issues that could effect the flying public and maintain excellent rapport with crew allows the public to comfortably travel especially during difficult times.

Areas of demonstrated expertise:

Expertise includes over 25 years of living and thriving in Santa Monica. Observation of positive changes made regarding public safety and pedestrian friendly activity has enhanced this city immensely. Safety for elderly neighbors remains a concern as I see less and less activity of our senior community and would like to give them more of a voice and implement changes making them feel safe and comfortable to reach out if necessary.

Goals:

Santa Monica should continue to improve life for its residents. Balancing modern times while honoring the history and charm of a beach city would be my ideal contribution to this city I'm lucky enough call home.

Vision:

My vision is to be educated on current policies while working with other cultures and age groups to design a common plan to improve life for a city that houses an eclectic group of families and individuals. Educating the public on how to preserve our natural habitat and what exactly that entails in regards to our old trees, sea life, and celebrating our cities ethnicity diversity.

Personal Qualities:

Following the protocol of my current job of respecting the chain of command, while following policy and respecting others has provided success in difficult situations. Leadership requires up to date training qualification and understanding the power of working through a team effort.

Will you be able to commit the necessary time to perform your duties if appointed to the board?
