Personal qualities identified in the criteria include leadership, creativity, and innovation as well as the ability to work effectively in a group setting and an ability to balance competing needs. Provide examples of how you have demonstrated those qualities:

This has been my life work, from various boards and committees, countless meetings, and many long nights. I have worked between red and blue, have and have not, the used and abused, the mentally challenged, the illiterate and the uneducated. I have seen what can happen if egos are not set aside for sustainable change. I have seen what empathy can do to a heart with hate. I have brought together groups who vowed they could not work together but came together for the good and came to an agreement where we all got what we needed. I'm a fan of working partnerships and not failing policies.
