I am a seasoned Technology Professional with several years of experience leading and facilitating teams at scale. Much of my day job is to craft a vision through working with stakeholders, facilitating discussions with team members on that vision, and reassessing the outputs on a periodic basis. I believe I can bring in a rigor of continual improvement through the lens of product and technical management. While much of my career has been in the private industry, I have been working to become more involved in local politics to help improve the material lives of our neighbors. My career has given me an opportunity to have difficult conversations and facilitate those critical conversations towards a shared goal.

Question applies to Public Safety Reform and Oversight Commission

**Please share any knowledge of or experience with law enforcement, public safety policies and issues, or social services policies and issues.**

The key issues that I would want to address are the following: 1. SMPD's interactions with the public for non-criminal or non-traffic enforcement situations should be limited and transferred to other agencies. 2. The desire to increase social services that address the material needs of Santa Monicans and address crime at it's root, not the symptoms. 3. Address that much of the SMPD do not live in the community they serve. Only 5% of SMPD reside in Santa Monica, but are expected to police our neighbors. 4. Ensure that any Use of Force is scrutinized and misconduct is addressed appropriately. In terms of experience, I have worked with various agencies in the past for different issues as it pertained to work.

Question applies to Public Safety Reform and Oversight Commission

**Why you are interested in serving on the Public Safety Reform and Oversight Commission?**

I am a staunch believer in the government working for the people. My desire to join the Public Safety Reform and Oversight Commission is to ensure that one of the largest line items on the City's budget is to make sure it is fulfilling that goal. I am an advocate for Racial Equity and Justice. Our Public Safety policies must ensure that all people are treated fairly and the marginalized are not targeted unfairly. I am an advocate for Restorative Justice and utilizing our collective efforts to provide the material needs of the people. Our Public Safety policies must ensure that we reduce Recidivism, not exasperate it.
