Personal qualities identified in the criteria include leadership, creativity, and innovation as well as the ability to work effectively in a group setting and an ability to balance competing needs. Provide examples of how you have demonstrated those qualities:

As a retired VP of fleet and facility operations as well as VP of fleet vehicle maintenance, I was responsible for leading and motivating 100+ heavy and light duty vehicle maintenance and repair technicians to conduct repairs and preventative maintenance on over 140 heavy and light duty vehicles. I constantly explored and thoroughly researched emerging technologies that would help the staff work smarter and not harder to accomplish the necessary job tasks in a efficient manner in order to lower physical stress, injuries and increase overall productivity. I also identified, trained, and mentored multiple line technicians to help them become supervisory and management level employees.
