**SUBJECT: LETTER OF DETERMINATION FOR SMALL CELL WIRELESS PERMIT APPLICATION 17WIR-0007**  
**LOCATION: CITY-OWNED STREETLIGHT POLE IN FRONT OF 2050 BROADWAY (AT THE TERMINUS OF THE T INTERSECTION OF 21<sup>ST</sup> ST AND BROADWAY)**

### **DETERMINATION**

The City of Santa Monica Department of Public Works has reviewed the Small Cell Wireless Permit Application referenced above and has found that the proposed facility complies with all applicable provisions of the Santa Monica Municipal Code and Federal Communications Commission rules.

### **FINDINGS**

- The proposed facility will have no effect on the public's use of the public right-of-way.
- The facility is an unmanned station, and once installed will require minimal maintenance.
- The applicant has complied with all measures requested in order to mitigate the impacts of the installation. The footprint impact is minimal relative to the scale of the site, and the installation will result in a minimal change to the character of the location and how the City's street light relates to the surrounding neighborhood. The radome and all equipment will be camouflaged (such as painted) to match the existing pole.
- The applicant has complied with all conditions imposed related to the time, place, and manner of use of the public right-of-way.
- The proposed facility has been found to be in compliance with the Federal Communications Commission's regulations concerning radio frequency emissions. Per section 332(c)(7)(B)(iv) of the Telecommunications Act of 1996, the City will not consider appeals based upon health concerns of radiofrequency emissions.

Based on these findings, I approve this application.

Sincerely,

A handwritten signature in blue ink, appearing to read "Greg deVinck".
