Subject: Letter of Determination for Small Cell Wireless Permit Application 16WIR-0043

Dear Marc Myers,

Following a review of subject application, I find the following.

The proposed facility complies with all of the applicable provisions of the Santa Monica Municipal Code and the Federal Communication Commission.

- The proposed facility will have no affect on the public's use of the public right of way. The facility is an unmanned station and once installed will require minimal maintenance and the footprint impact is minimal relative to the scale of the site.
- The applicant has complied with all measures requested in order to mitigate the impacts of the installation. The installation will result in a minimal change to the character of the location. The equipment will be 18 feet above the ground at the lowest point and hang from a fiber cable strand attached to a nearby utility pole.
- The applicant has complied with all conditions imposed related to the time, place and manner of use of the public right of way.
- The facility, by Federal law, cannot be reject for heath impact concerns.

Based on these findings I approve this application.

Sincerely,

fcc
Susan Cline
Public Works Director
