

## PUBLIC WORKS DEPARTMENT STATEMENT OF OFFICIAL ACTION

### PROJECT OVERVIEW

<b>Application</b>	19WIR-0030	<b>Application Date</b>	July 25, 2019
<b>Applicant</b>	CityNet – City of Santa Monica		
<b>Carrier</b>	Verizon		
<b>Case Engineer</b>	Thomas Check, PE, Civil Engineering Associate		
<b>Request</b>	The applicant requests to install a personal wireless service facility in the public right-of-way at the location identified below.		

### LOCATION INFORMATION

<b>Installation Medium</b>	The personal wireless service facility is proposed to be installed on a City-owned traffic signal pole (City pole ID #ID NEEDED)
<b>Nearest Legal Address</b>	1610 Colorado Ave
<b>Installation street/alley</b>	Colorado Ave (southwest corner of Colorado Ave and 17 <sup>th</sup> St)  (See Attachment A for additional location information)

### CEQA STATUS

The proposed small cell site is exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to Section 15303, which permits the installation of small new equipment and facilities in small structures.

### PUBLIC WORKS DEPARTMENT ACTION

<b>Action</b>	Application Denied
<b>Determination Date/Effective Date of Action</b>	September 11, 2019

Each and all of the findings and determinations are based on the competent and substantial evidence contained in the entire record relating to the application. All summaries of information contained herein or in the findings are based on the substantial evidence in the record. The absence of any particular fact from any such summary is not an indication that a particular finding is not based in part on that fact. Each finding is independent of every other finding.

**FINDINGS**

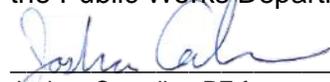

City staff reviewed the proposed personal wireless service facility with applicable requirements described in Santa Monica Municipal Code (SMMC) Chapter 7.70 and the Public Right-of-Way Personal Wireless Service Facility Standards and Regulations (Standards) published September 9, 2019.

The submitted application proposes the installation of a personal wireless service facility on a City-owned traffic signal pole. While the proposed installation location appears to be the public right-of-way, it is in fact located within the parcel commonly known as 1610 Colorado Ave (Assessor Parcel Number 4283-010-903).

SMMC 7.70 authorizes the Public Works Director to approve, conditionally approve, or deny requests for the installation of personal wireless service facilities within the public right-of-way. Given that the personal wireless service facility is proposed on a parcel of land and not within the public right-of-way, the Public Works Director is not authorized to approve the request. Therefore, the application is denied.

**PUBLIC WORKS DIRECTOR CERTIFICATION**

I hereby certify that this Statement of Official Action accurately reflects the final determination of the Public Works Department of the City of Santa Monica.
