**1. RECOMMENDED REPLACEMENT SPECIES:**

Trees that will be the designated species for individual street segments.

**2. ALTERNATE SPECIES:**

Trees that will be planted at the discretion of the City only in cases where the recommended species is not thriving, poses a threat of disease transfer to other trees or is unavailable in nurseries.

**3. DESIGNATED CITY LANDMARK ON THIS STREET SEGMENT:**

Public Landscape Division staff will seek input from the Landmarks Commission in an advisory capacity to obtain information on the historical context regarding species designations adjacent to Landmarks on this street segment. See page 53; Guiding Principle #5 Stewardship, Section 14 Landmarks and Historic Districts.
