

## 7/1/2020 – COVID19 Update for Tree Planting

Due to the current COVID19 pandemic, budget reductions for the new fiscal year 2020/2022 have impacted Urban Forestry services. Tree planting is at max fiduciary capability at ~325 trees scheduled to be planted throughout Santa Monica (image below of proposed planting sites). These sites were surveyed during fiscal year 2019/2020.

Please create a [Santa Monica Works](#) request to schedule a site inspection and coordinate planting for next fiscal year. You may also request an invoice for the City of Santa Monica to plant a new tree curbside per the [Santa Monica Street Tree Designations List](#) pending the available curbside parkway or tree well space. The new tree is added to the watering list and under guarantee for 18 months.

- **15 Gal – \$153.35**
- **24" Box – \$290.80**
- **36" Box - \$793.15**
- **48" Box - \$2009.25**
- **\$60" Box - \$5287.65**
- ***Palms differ in price by species measured in Brown Trunk Height.***

Tree watering was reduced from 1 watering crew daily throughout the City to 2-3 times weekly. Please share water with your curbside trees & consider updating existing irrigation to benefit tree health. Take the time to [visit our tree watering guidelines](#) to be better familiarized with your Urban Forest.

Please let us know if we can be of further assistance.  
Thank you for contacting the City of Santa Monica – Urban Forestry
